Planning a four-year high school program is an important undertaking. The courses you select should be guided by your plans for the future. As the world becomes smaller due to technological advances, it becomes increasingly more important to your future for you to choose a challenging course of study.

When you enter the 9th grade, you are a member of a cohort which identifies the year of your expected graduation. Example: a student entering 9th grade in 2016-17 is a member of Cohort 2020.

It is important to think about your future and the type of post-secondary education that you will need. Your course selections should reflect your desire to prepare for your life after high school. Choosing your courses should be guided by your interests as well as your abilities. Some students are sure of their future plans; others are still deciding. The courses that you choose will help you clarify your interest. While it may seem tempting to schedule a less demanding combination of courses, choosing rigorous courses that meet your needs or interests is the best way to prepare for your future. In Conroe ISD, there is a wide range of programs designed to prepare students for post-high school experiences: college, business or technical school, military service, fine arts, immediate employment and many others. These programs allow you to choose the one that is best suited to your needs.

On the following pages you will see the graduation requirements and the graduation plans that are available to you. There is also information relating to career planning that may be helpful. These pages should assist you in personalizing your plan. You will then find a description of the courses offered along with any information on prerequisites or grade level placement. Students will create their four-year with a counselor. Many people can advise you and support you through this process. Your parents, teachers and counselors can assist you to better understand your goals, the graduation programs, and careers. These adults are familiar with the work you have done in different subjects and will be able to make suggestions about your program of study. Their advice will be very helpful. Other people, who know you well, such as relatives and friends, can also help you. Talk with them so that you can consider their ideas. It is also helpful to talk with people who are currently in those careers that you find interesting.

They can share information about their work and what courses will help you prepare for the future.

Junior High Students and Parents:
- Review the Junior High Program of Study.
- Read about the differences in the ways in which core courses are offered at junior high and high school.
- Study the content and requirements for the core and elective courses available for your grade level.
- Think about your future goals for high school and college. With this information in mind, begin to develop an understanding of the program of study you will pursue in high school by looking at the Senior High section of the guide. Also consider the examples of ways to earn high school credit while in junior high school.
- Create a high school four year plan.
- Make a final decision about the courses you plan to take for next year. Complete the Course Selection process provided by your campus to indicate your request for next year and submit it by the required deadline.
- Learn more about careers, majors, and colleges in Naviance Family Connection.

Senior High Students and Parents:
- Review the graduation requirements for the year in which you enter high school as a freshman.
- Review the 4-Year Plan that you have completed and/or review records of the high school courses you have already taken.
- Research careers, colleges, and majors in Naviance Family Connection.
- Think about your post-secondary education plans and career goals. Decide which college and/or articulated credit opportunities you might want to pursue in high school.
- Review the formats in which core courses are offered.
- Choose courses for next year’s schedule that support your 4-Year Plan and career goals. Be sure you have completed the prerequisite requirements for the courses you select.
- Complete the Course Selection that was issued by your campus and submit it by the required deadline.
According to legislation (HB 3826) passed by the Texas Legislature during the 2007 summer session, students must complete the Recommended or Distinguished Graduation Plan in order to be eligible for admission to a Texas public 4-year college. In addition, to be eligible for automatic admission through the top ten percent rule, a graduate must complete either the Recommended or Distinguished plan. (NOTE: SB175 allows the University of Texas at Austin to cap its top 10% admissions at 75% of the freshman class. UT admissions will release auto admission percentages in the fall. (See your counselor for details.))

Top 10 percent: In addition to the top 10 percent GPA requirement, eligibility for automatic admission will include the requirement that an applicant:
- Has completed either the curriculum for the recommended or advanced (Distinguished Achievement) plan at a public high school;
- Or
- Satisfied ACT’s College Readiness Benchmarks on the ACT assessment (English 18, Math 22, Reading 21, Science 24) OR earned a score of at least 1500 out of 2400 on the SAT assessment or the equivalent.

All CISD high schools offer students the opportunity to take courses that would fulfill this requirement.

In addition to the above, an applicant must meet the college or university’s deadlines and provide a high school transcript or diploma.

There were some other changes developed specifically for the purpose of encouraging students interested in entering the teaching profession:

Top 25 percent: A general academic teaching institution may adopt an admissions policy granting automatic admission for students with GPA’s in the top 25 percent and:
- Completed either the recommended or advanced program or an equivalent program; or
- Satisfied the ACT or SAT requirements (described above); and
- Provided an appropriate transcript.

General admissions: A student who does not qualify for automatic admission may apply to any general academic teaching institution if the student:
- Completed either the recommended or advanced program or an equivalent program; or
- Satisfied the ACT or SAT requirements (described above); and
- Provided an appropriate transcript.

Distinguished Achievement Plan

The Distinguished Achievement Plan (DAP) requires students to complete the 26 credit Recommended Plan for students entering high school in the fall of 2007-2013 (RHSP), including a third credit in the same language other than English (LOTE), and one fewer elective. In addition, students must complete advanced measures that reflect work at college or professional level as assessed by outside evaluators. In order to achieve this distinguished recognition, students must complete any combination of four of the advanced measures listed below:

- National Merit Scholarship Corporation (Commended Scholar or higher, National Hispanic Scholar Program; National Achievement Scholarship Program) (one measure only)
- A score of three or above on Advanced Placement examinations
- A grade of 80 or higher in Dual Credit (DC) courses (at least 3 semester hours each)
- Other approved advance measures (two maximum)
  - Science Fair Project (must advance to SEFH)
  - Other original research/project, approved by the Campus DAP Review Committee

Students interested in graduating under the Distinguished Achievement Plan must meet the campus deadlines. See your counselor for an application.

Recommended High School Plan

The Recommended High School Plan (RHSP) (26 credits for students entering high school in the fall of 2007 - 2013) helps ensure that all Texas high school
students have the skills and knowledge necessary to succeed after graduation. The program encourages students to set targets beyond the minimum graduation requirements and allows students to pursue their own interests in a variety of college-preparatory courses. The program requires challenging academic courses that mean students will be better prepared to complete technical school, community college, or a four-year university. The RHSP may qualify a student with financial need for the Texas Grant program and certain scholarships.

**Foundation High School Program and Endorsements – students entering high school Fall, 2014 and beyond**

**College Admission – High School Graduation Requirements for Cohorts 2018 and Beyond**

HB 5, passed by the Legislature in 2013, changed the requirements for eligibility for automatic admission for the top 10% to a Texas public 4-year college. In order for students in cohorts 2018 and beyond to be eligible, the must:
- Complete the Foundation High School Program (FHSP)
- Complete at least one endorsement
- Complete Algebra II

**NOTE:** SB 175 allows the University of Texas at Austin to cap its top 10% admissions at 75% of the freshman class. UT admissions will release auto admission percentages in the fall. (See your counselor for details.)

Any student who completes the Foundation High School Program, is eligible to apply to any Texas 4-year college. They will have to meet the college’s entrance requirements, and meet all deadlines.

**The Foundation High School Plan with Endorsements**

The Foundation High School with Endorsements is the default graduation plan for CISD students entering in the Fall of 2014. It was designed to give students more flexibility in scheduling classes. The plan includes 4 credits in each of the core subjects, 2 credits in Foreign Language, 1 credit each in PE and in Fine Arts, plus ½ credit of health. The remaining 5 ½ credits will combine to complete an endorsement.

**Endorsements**

Endorsements may be chosen in the following areas:
- STEM
- Business and Industry
- Public Service
- Arts and Humanities
- Multidisciplinary Studies

Students will be completing four-year plans with their counselors to include one or more endorsements. **Note:** Due to availability of courses, endorsements may have to be adjusted.

**Distinguished Level of Achievement**

To earn the distinguished level of achievement, students must complete:
- The Foundation High School Program
- An Endorsement
- Algebra II

Students completing the distinguished level are eligible for college admissions under the top 10% automatic admissions provision.

Texas House Bill 5 was approved by the Texas Legislature creating the Foundation High School Plan and Endorsements. This plan is required for all students that enter their freshman year in 2014 and beyond. Students that entered high school prior to 2014 may seek to graduate under this plan. Students interested in this option should consult with their guidance counselor.

**College Admission Requirements**

Individual college catalogs/websites should be consulted for specific admission requirements. Certain college majors may require more math and science or foreign language. If you are considering applying to a selective college, consult the college website, your high school counselor, and visit the College and Career center to learn about specific entrance requirements. Students may access a College and Career Handbook on the school’s website.

**Course Availability**

Conroe ISD takes pride in serving the specific and unique needs of the community in which our high school campuses are located. A few of the factors that can impact courses offered are the campus size, student interest, teacher availability, and facilities specific to a campus. Although each campus is unique, Conroe ISD high schools will offer courses...
necessary for students to meet the recommended and foundation high school program

**Early Graduation**

Students who wish to graduate early (3 years) must file an early graduation plan **no later than the end of the tenth grade**. The student and parent should make an appointment with the counselor to develop a graduation plan as soon as this decision is made. Early graduates must complete the graduation requirements for the Foundation High School Plan with endorsement.

**Eligibility for Participation in Commencement Services: Graduation Requirements**

To receive a high school diploma from the Conroe Independent School District, a student must successfully complete the graduation requirements and pass required assessments.

Students who wish to participate in graduation ceremonies must do so at the first ceremony after completing all graduation requirements. Students must meet campus deadlines. Ceremonies are held each spring, in the middle of the year, and at the end of the summer session. Consult your counselor for dates.

A student who receives special education services and who has been enrolled in high school for four or more years has the option of participating in the graduation ceremony regardless of whether he/she is actually graduating that year. Students are permitted to participate in only one graduation ceremony. The actual graduation/completion of high school is still determined by meeting the requirements set forth by the Conroe Independent School District, the State of Texas, and/or criteria established by the student’s ARD committee. Students/parents who wish more information should see their counselor.

#### Advanced Measures

Find additional requirements in course catalog

---

### 4th Year Mathematics Course Options:

**Recommended Plan:**

- Mathematical Models with Applications (only if taken prior to Algebra II)
- Mathematical Applications in Agriculture, Food, and Natural Resources (only if taken prior to Algebra II)
- Engineering Mathematics
- Independent Study in Mathematics (Ex. College Algebra)
- Precalculus
- Statistics and Risk Management
- AP Calculus AB or BC
- AP Computer Science
- AP Statistics
- IB Mathematical Studies SL
- IB Mathematics SL or HL
- IB Further Mathematics SL
- Advanced Quantitative Reasoning

**Distinguished Plan:**

- Engineering Mathematics
- Independent Study in Mathematics (Ex. College Algebra)
- Precalculus
- Statistics and Risk Management
- AP Calculus AB or BC
- AP Computer Science
- AP Statistics
- Dual Credit College Algebra
- IB Mathematical Studies SL
- IB Mathematics SL or HL
- IB Further Mathematics SL
- Advanced Quantitative Reasoning

---

Note: Three credits of mathematics must be taken during grades 9-12. Courses taken in Junior High such as Algebra I and Geometry will count toward the mathematics requirement for high school. It is CISD’s expectation that students take math all four years they are in high school.

### 4th Year Science Course Options:

- Advanced Animal Science
- Advanced Biotechnology
- Advanced Plant and Soil Science
- Anatomy and Physiology
- AP Biology
- AP Chemistry
- AP Environmental Science
- AP Physics 2
- AP Physics C
- Aquatic Science
- Astronomy
- Earth and Space Science
- Engineering Design and Problem Solving
- Environmental Systems
- Food Science
- Forensic Science
- IB Biology
- IB Chemistry
- IB Environmental Systems
- IB Physics
- Medical Microbiology
- Pathophysiology
- Scientific Research and Design

</tr>
</tbody>
</table>

## Electives

**5.5 Credits**

- To include the student’s chosen endorsement. See list of Endorsements.

## HBS FHSP with Endorsement

**26 Credits**

### FHSP Advanced Math Course Options:

- Algebra II
- Mathematical Models with Applications
- Mathematical Applications in Agriculture, Food and Natural Resources
- Digital Electronics
- Robotics

### Endorsement Plan Advanced Math Course Options:

- Algebra II
- Engineering Mathematics
- Independent Study in Mathematics (Ex. College Algebra)
- Pre-Calculus
- Statistics and Risk Management
- AP Calculus AB or BC
- AP Computer Science
- AP Statistics
- Advanced Quantitative Reasoning
- Discrete Math for Problem Solving
- Discrete Math for Computer Science

## Endorsement Plan Advanced Science Course Options:

- Advanced Animal Science
- Advanced Biotechnology
- Advanced Plant and Soil Science
- Anatomy and Physiology
- AP Biology
- AP Chemistry
- AP Environmental Science
- AP Physics 2
- AP Physics C
- Aquatic Science
- Astronomy
- Earth and Space Science
- Engineering Design and Problem Solving
- Environmental Systems
- Food Science
- Forensic Science
- Medical Microbiology
- Pathophysiology
- Scientific Research and Design
- Principals of Engineering

For students to earn the Distinguished level of achievement (and be eligible for automatic college admissions under the top 10% rule), the student must complete:

- The Foundation High School Plan
- An Endorsement
- Algebra II
Endorsements

All endorsement plans require the 4th math and 4th science.
Campus offerings vary in electives for each endorsement, so please check your Program of Studies for what is available on your campus.

### Science, Technology, Engineering & Math (STEM)

Requires Algebra II, Chemistry, Biology, Physics AND:

- Coherent sequence of 4 credits in CTE STEM courses, OR
- Coherent sequence of four courses in computer science, OR
- Three credits in mathematics (Algebra II + two for which Algebra II is the prerequisite, OR
- Five courses in science (two in addition to Physics, Biology, and Chemistry, OR
- In addition to Algebra II, Biology, Chemistry and Physics, three credits from no more than two of the above categories.

### Business and Industry

Coherent sequence of four English elective courses to include three levels of one of:
- Advanced Broadcast Journalism
- Advanced Journalism: Newspaper
- Public Speaking
- Advanced Journalism: Yearbook, Debate, OR

Coherent sequence of four credits from these CTE course clusters (including two in one cluster and one advanced course):
- Agriculture food and natural resources
- Architecture and construction
- Arts/Audio-Visual technology, and communications
- Business management and administration
- Finance
- Hospitality and tourism
- Information Technology
- Manufacturing
- Marketing
- Transportation, Distribution and Logistics, OR

Four Technology Applications credits, OR

Four credits of any of the above in a coherent sequence that is documented in the student’s 4-year plan.

### Public Services

Coherent sequence of 4 or more credits in CTE courses (2 in same cluster, one advanced) to include:
- Education and training, OR
- Government and Public Administration, OR
- Human services, OR
- Health science, OR
- Law, Public safety, corrections and securities, OR
- Four courses in Junior Reserve Officer Training Corps (JROTC)

### Arts and Humanities

- Five social studies credits, OR
- Four levels of the same language other than English (LOTE), OR
- Two levels of the same LOTE and two more levels of a different LOTE, OR
- Coherent sequence of 4 credits in one or two categories or disciplines of Fine Arts (Art, Dance, Theater Arts, Band, Choir, Orchestra)

### Multidisciplinary studies

- Four advanced courses that prepare a student to enter the Workforce successfully, or post-secondary education without remediation (no coherent sequence required), OR
- Four credits in each of the four Foundation subject areas to include English IV and Chemistry and/or Physics, OR
- Four AP, IB or dual credit courses selected from English, math, science, social studies, economics, LOTE or fine arts.
Sequence of Courses

Students may not take more than 1 required core course per academic school year in English, mathematics, science and social studies without principal approval. The four-year plan must indicate the student’s intention to take additional courses for elective credit during the junior and/or senior year. No student will be allowed to take a math course in which he/she has not completed all of the prerequisite course(s).

Levels of Courses of Study

The District’s high schools offer Level Courses, Pre-Advanced Placement/Honors Courses, Dual Credit Courses, Advanced Placement Courses, Career and Technical Education Courses, and Special Education Courses. A brief description of each follows.

Level Courses

Level courses are designed to provide students a high level of academic preparation that will enable the student to prepare for post-secondary educational opportunities and/or joining the community work force.

PreAP and Honors Courses

The PreAP and Honors classes include the curriculum of the level classes, but with a more in-depth study of the areas within the course. Honors designation indicates an accelerated course in areas where there is no PreAP course available. (ex: level, Honors, Advanced Placement). The PreAP and Honors curriculum is designed to prepare students for Advanced Placement or for the next Honors course in that subject area. Students who are successful in Honors and PreAP classes should consider taking Advanced Placement courses. Honors courses are accelerated courses with enriched content. Honors/PreAP courses are offered in English, LOTE, mathematics, social studies, science and computer science. Careful consideration should be given when deciding to take advanced courses as class sizes may limit a school’s ability to allow a student to change levels. These courses require more individual initiative, analytical reading, student interaction, research, and time for outside class preparation. Students should be prepared to spend more time on homework. Students are better prepared for Advanced Placement and Dual Credit classes upon successful completion of Honors/PreAP courses.

Dual Credit Courses

The high school/college dual credit program will provide qualified high school students an opportunity to earn high school credit toward graduation, as well as college credit for designated courses. Students can select these courses when preparing their high school graduation plan and graduate with college credit hours that can be used toward completion of a college degree. Students should be aware of campus and college deadlines for submitting all required forms and payments.

College credits earned through the Dual Credit Program will be accepted by most institutions on the same basis as other college credit. Proof of registration must be provided to the high school counselor. Dual credit grades will count in the GPA. Students who are approved for off-campus college courses have either first or last period release time in the high school schedule for this course. Those who drop the course after the first two weeks of class, or do not attend the course, will receive an F on the high school transcript for that course. All dual credit courses do count for UIL eligibility purposes (no pass, no play) whether they are taken on or off campus.

Students taking dual credit courses off campus must enroll in college classes that will not conflict with courses on the high school campus. Lunches and schedules will not be adjusted in order to accommodate college courses. Taking an off-campus course will not guarantee a parking space at the high school. Students may schedule a dual credit college course at a time after 3:00 p.m. if that best fits their schedules. Please address any question to the high school counselor.

- Dual credit courses must be approved by the high school counselor in advance, and
- Must meet college admissions deadline in accordance with campus deadlines for course requests.
**Dual Credit Grade Points**

Students taking dual credit courses will receive grade points according to the following:
1. Course taught off of the high school campus receives level grade points commensurate with the grade earned.
2. **Core academic** courses taught on the high school campus receive the maximum grade points available for the grade earned.
3. All other courses will be awarded level grade points.

**CISD Approved Dual Credit Courses for Lone Star College**

* Requires one of the following minimum test scores to enroll:
  **ENG 1301 Composition and Rhetoric I**
  **MATH 1314 College Algebra**
Advanced Placement

Conroe ISD encourages teachers, counselors, and principals to make equitable access a guiding principle for their advanced academic programs. Conroe ISD is committed to the principle that all students deserve an opportunity to participate in rigorous and academically challenging courses and programs. All students who are willing to accept the challenge of rigorous academic curriculum will be considered for admission into PreAP and AP courses. Conroe ISD encourages the elimination of barriers that restrict access to these programs for students from ethnic, racial, and socio-economic groups that have been traditionally underrepresented in the advanced programs.

Advanced Placement (AP) Courses are the most advanced and rigorous academic courses offered by the district. This program gives students the opportunity to pursue college-level studies while still in secondary school and, depending on the student’s score on the AP exam, to receive college advanced placement credit. All AP courses have received College Board authorization, and each course syllabus is available for review on the campus web page. For more information refer to www.collegeboard.com. Students are expected to take the College Board Advanced Placement Tests in May. This cost could be reduced pending state funding. Please see your counselor for further details. Financial aid is available for students who sign up and qualify by the published deadline. Academic ability, motivation, and willingness to work are considered in placing students.

Course credit or advanced placement credit is awarded by many colleges and universities to students who score a 3, 4, or 5 on the advanced placement examination. Students are encouraged to check with the colleges and universities they are interested in attending to learn more about AP score requirements (www.collegeboard.com).

Advanced Course Agreement

Students are encouraged to take the most rigorous courses in which they can be successful. Taken into consideration are the student’s grades, work ethic, responsibility, quality of work, etc., demonstrated throughout the year. Advanced Placement courses will require additional time commensurate with that expected of a college-level course. Students are urged to consider how much time they will need to prepare for the AP courses, other courses, and extracurricular activities prior to selecting courses. Parents may request the student be placed in a higher level or a lower level course. An Advanced Course Agreement must be signed by the parent as well as the student. The advanced course agreement specifically states that the student is expected to remain in the requested level for the entire year. At the end of the first semester, administration, parents, teacher, and student may evaluate the plan established earlier in the semester along with current student progress and may make an adjustment to the student’s schedule. Any change will only be made on a space available basis.
Conroe Independent School District
Student and Parent Agreement for Enrollment in Advanced Courses
Honors, Pre-AP, AP, Dual Credit

CISD encourages all students to enroll in available advanced placement (AP) and Pre-AP classes to enhance their academic experience. Any CISD student may enroll in Pre-AP or AP classes as his or her schedule permits.

AP and Pre-AP classes offer a high degree of rigor designed to prepare the student for success in higher academic pursuits. The purpose of a Pre-AP course is to prepare students for college-level work which they will experience in AP classes. AP courses provide college-level instruction and culminate in AP exams that are designed by the College Board. Students who successfully complete AP exams may receive college credit.

- Characteristics of a Pre-AP, AP, Dual Credit class are:
  - Student-initiated learning with an emphasis on strong work ethic;
  - Rigorous academic content in AP requiring reading proficiency;
  - More depth and complexity;
  - Application of content strategies;
  - Consistent use of higher-level thinking skills;
  - Assignments are more analytical;
  - Required commitment to course inside and outside of classroom.

AP courses differ from regular high school courses in that instructors use advanced curricula that is outlined by the College Board and authorized through the College Board’s audit process. Pre-AP courses focus skill development, habits of mind, and in-depth preparation in a subject area that is necessary to master the skills required to achieve success in AP courses. Other characteristics of advanced courses include content immersion, a fast pace, and assessment of performance at the analysis and synthesis levels.

While we expect students to be very successful in Pre-AP, AP, or Dual Credit classes, a close look at the student’s total course load and commitments to other activities should be taken into deliberation when choosing how many of these courses to take during a semester. For some students, the best way to begin moving into these courses is by beginning with one, until they better understand the expectations and time commitments involved.

CISD strongly believes that PreAP, AP, and Dual Credit courses provide enhanced academic opportunities for students that will assist them in future academic or nonacademic pursuits. At the same time, the District recognizes that students may experience initial surprise or difficulty in managing the increased course requirements. A struggling student and his/her parent/legal guardian should schedule a conference with the teacher and counselor in order to create strategies to be implemented over a period of time. To ensure students allow sufficient time to become acclimated to the classes and what the PreAP and AP curriculum can offer, the District expects that any student who enrolls in the PreAP or AP class will remain in the course for the entire year. It is essential that the student give his/her maximum effort to succeed. At the end of the first semester, administration, parents, teacher, and student may evaluate the plan established earlier in the semester along with current student progress and may make an adjustment to the student’s schedule. Any change will only be made on a space available basis.

**Student Agreement**

My signature below confirms that I am familiar with the expectations of the AP/Pre-AP/Dual Credit course and accept its academic challenges. I agree to devote my best efforts to successfully complete the course. I understand this class offers increased rigor and challenge and I agree to request help when I need it and to attend tutorials if I fall behind in class assignments or experience difficulty with course content. I understand that my success in this AP/Pre-AP course is primarily my responsibility. I understand and agree that a schedule change will only be considered after the first semester if the conditions stated above have been met.

**Parent/Legal Guardian Agreement**

My signature below confirms that I have read and am familiar with the course description and syllabus for the AP/Pre-AP/Dual Credit course. I understand that the course requires increased rigor and challenge and I agree to support and encourage my student to successfully complete this course. I will notify the teacher immediately of any concerns I have relating to the AP/Pre-AP/Dual Credit class or my student’s progress. I understand and agree that my student will only be considered for a schedule change after the first semester if the conditions stated above have been met.

The Conroe Independent School District (District) as an equal opportunity educational provider and employer does not discriminate on the basis of race, color, national origin, sex, religion, age, or disability in educational programs or activities that it operates or in employment matters. The District is required by Title VI and Title VII of the Civil Rights Act of 1964, as amended, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, as well as Board policy not to discriminate in such a manner.

For information about Title IX rights or Section 504/ADA rights, contact the Title IX Coordinator or the Section 504/ADA coordinator at 3205 W. Davis, Conroe, Texas 77304; (936) 709-7752

High School Graduation Requirements
**Gifted and Talented**

Students identified to receive Gifted and Talented services are predominantly served through Pre Advanced Placement and Advanced Placement courses at the 9th and 10th grade levels and by Dual Credit and Advanced Placement courses at the 11th and 12th grade levels. Students not enrolled in these courses receive differentiated instruction to meet their educational needs. Information regarding testing for Gifted and Talented services may be obtained by contacting the campus counseling office.

**Special Education**

The goal of an effective special education program is to provide each special education student with an opportunity to be successful in the least restrictive, educational and/or work environments. A variety of instructional settings are used to promote academic and/or career and technology learning based on students’ individual needs and personal goals for adult life. Conroe ISD is committed to the instruction of academic competencies, personal growth, skills, and decision-making and problem solving skills that are recognized as critical for success in high school and adult independent living. To achieve these goals, an Individual Education Plan (IEP) will be developed for each student, with special education and/or regular education staff working together to modify materials or instruction determined as appropriate by the Admission, Review and Dismissal (ARD) Committee. Should you have any questions concerning the special education program, please call the counselor or special education diagnostician.

**Special Education Classes**

These courses are specially designed for students who have a modified curriculum in accordance with their individualized education plan (IEP).

**Homebound Services**

Referrals for consideration of homebound services through general education or the special education department are forwarded from the Response to Intervention (RtI) team. Students who will miss school for 4 or more weeks due to medical reasons may qualify for homebound services. It is an ARD/General Education Homebound Committee’s decision to determine if a student meets eligibility criteria. Please contact your child’s counselor for more information.

**Foreign Exchange Students**

The purpose of a foreign exchange program is cultural and social, not for graduation purposes. The District limits the number of foreign exchange students at each of its high schools through a waiver with the Texas Education Agency. The exchange student must reside within the school's attendance zone to be enrolled. Because of space limitations, foreign exchange students who have graduated from a comparable high school program in their home country are not eligible to be foreign exchange students in CISD. Foreign exchange students are classified as 11th grade students and are not placed on a graduation plan. Foreign exchange students in an EOC test course will be required to take STAAR EOC tests. Courses will be assigned upon registration. Foreign exchange students must meet the same guidelines for class placement and level changes as all other District students. All students who have English as a second language must be tested for English proficiency.

Foreign exchange students who wish to apply for graduation must request an official transcript from the last school the student attended. Transcripts should be received prior to the student enrolling in the District. The transcript will be evaluated to determine eligibility for graduation. Foreign exchange students who apply for graduation must meet the same course and testing requirements as all other District students.
How Can I Make Sure My Student Is College Ready?

- Students who take the most rigorous courses tend to be more successful on college entrance tests and in their college courses.
- Students who take more math show higher success rates.
- Students who spend time reading score higher on tests and perform better once on the college campus.
- Writing skills are very important across the curriculum. Knowing one’s audience, writing concisely and in an organized, coherent manner is paramount.
- CISD has PSAT, SAT, and ACT prep courses available.
- Work on time management, self-advocacy, and persistence with your child.

Four Key Dimensions of College Readiness

- Key Content Knowledge: Writing skills, algebraic concepts, key foundational content, and “big ideas” from core subjects.
- Contextual Skills and Awareness (“college knowledge”): Admissions requirements, cost of college, purpose and opportunities of college, types of colleges, college culture, interacting with professors.

Measuring College Readiness

Testing scores can denote college readiness:

<table>
<thead>
<tr>
<th>ACT</th>
<th>English</th>
<th>Math</th>
<th>Reading</th>
<th>Science</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>18</td>
<td>22</td>
<td>22</td>
<td>23</td>
</tr>
</tbody>
</table>

Exemptions:
- ACT Composite 23 with minimum math of 19 and English 19

Students must also have graduated on the Recommended High School or Distinguished Achievement Plan (Cohort 2016 and 2017 only) in order to apply to a state 4-year institution (or meet the SAT or ACT requirements above). This applies to all students, including those in the top 10%.

Testing Information

STAAR

Students are required to successfully complete Algebra I, English I, English II, Biology, and US History STAAR exams.

More information regarding STAAR EOC can be found at http://staar.conroeisd.net

PSAT

The Preliminary SAT/National Merit Scholarship Qualifying Test is scheduled one time only during the third week in October. It is administered to sophomores and juniors during the school day. This practice test for the SAT is also the qualifying exam for the National Merit Scholarship Program, the National Hispanic Recognition Program, and the National Scholarship Service for African-American Students. It covers critical reading, writing, and math skills. It is a valuable predictor for success in higher level courses, for future SAT scores, and for success in college. Many scholarship and college applications ask for junior year PSAT scores. While only juniors are eligible for scholarship consideration, sophomores and freshmen may take the test for practice.

Price: No charge to sophomores and juniors

ACT

The ACT is one of two college entrance exams required by most colleges and universities. The ACT tests skills in English, math, science, and reading. There is also a recommended 30-minute essay test available for an extra charge. Scores range from 1 to 36 on each section. Those scores are combined into a composite score which also ranges from 1 to 36. A score above 20 is generally in the top 50%. The ACT is administered on Saturdays about 6 times a year. Registration with ACT is required about six weeks in advance. http://www.actstudent.org

Price: $38.00, plus $16.50 for writing section

Fee Waivers are available. See your counselor for more information
New SAT Redesign

The SAT Test is one of two college entrance exams required by most colleges and universities. The SAT tests Evidence Base Reading and Writing, Mathematics with an optional Essay. Evidence-base Reading and Writing range from 200 to 800 on each section. In addition, Math scores range from 200 to 800. The SAT is given on Saturdays several times a year. Registration with the College Board is required about six weeks in advance.  
http://www.collegeboard.com.org/register  
Cost of the SAT without essay: $43.00  
Cost of the SAT with essay: $54.50

SAT Subject Tests

The SAT Subject Tests are one-hour multiple choice tests. They provide the opportunity for students to demonstrate mastery of specific subjects in the areas of English, history, mathematics, science, and languages. Some colleges and universities require specific exams for admission or placement, and some award credit for high scores. Scores range from 200 to 800, with credit consideration typically given for scores above 560. Students should register for these tests after completing the highest level courses in the subject areas. The SAT Subject Tests are given on Saturdays about 6 times a year. Up to three exams may be taken on the same day, but the SAT Reasoning Test may not be taken on the same day. Registration with the College Board is required about six weeks in advance.  
http://www.collegeboard.com.org/register  
Price: Basic registration $26.00. Language with Listening Test adds $26. All other subject tests $16.

AP – Advanced Placement Exams

The College Board AP exams are given once a year, in May, during the school day. Each three hour exam covers college level content in a specific course. The tests consist of both multiple choice and essay questions. Foreign Language exams include a speaking and listening section. Scores range from 1-5, with most colleges awarding credit for scores of 3 or better. Registration takes place in March in the counselors’ office. 
See page 11 for more details.

TSI

The State of Texas requires all students to demonstrate college level readiness in reading, math, and writing before taking any courses that count towards a college degree. Students may be exempt from this test with specified scores on either the STAAR, SAT, or ACT. This test is given on college campuses and offered in CISD. Pre-registration is required. Meeting TSI standards is also required for any dual credit classes. TSI is an untimed, computerized test used to qualify students for dual credit admissions. To check for test schedules and to register, go to http://ready.conroeisd.net .  
Price: Free of charge the first time. Retests are $10 per unit or $29 for the entire test.  

NOTE: Prices listed are subject to change. Check the website listed or your counselor for current information.

Steps toward College

Seventh Grade – Fall  
- Begin investigating careers and college majors in Naviance Family Connection.  
- Start thinking about possible high school courses.

Eighth Grade – Fall  
- Take a career inventory in Naviance Family Connection (your counselor will give directions).  
- Take some courses for high school credit.

Eighth Grade – Spring  
- Study the high school courses available. Look at PreAP, Advanced Placement, and Dual Credit opportunities.  
- Create your 4-year plan in View-IT (Student Access Center). Be ready to declare an endorsement for your electives area. You CAN change your mind before your junior year.  
- Listen carefully as counselors visit with you about high school classes, keeping in mind future plans for college and/or career.  
- College information can be accessed through Naviance Family Connection and other websites, such as College for All Texans (www.collegeforalltexas.com).  
- Continue your college and career search through Naviance Family Connection.

Freshman Year – Fall  
- Focus on the importance of high school and make good academic decisions.  
- Become familiar with careers that relate to your abilities and interests through Naviance Family Connection.  
- Get involved in extracurricular activities sponsored by your school and/or community. Make note of time involved, leadership roles, and activities.  
- Keep a portfolio/resume listing all your activities, awards, honors, and leadership roles.  
- Be responsible for your education. Make sure your academic grades reflect your true ability and efforts. Take courses at the most challenging level you can.  
- Talk with your parents about planning for college costs.  
- Get to know your counselor! He/she will write letters of recommendation for college/scholarships/careers  
- Visit the College and Career Center on your campus and meet the counselor there.  
- Participate in College Night.
Freshman Year – Spring
- Adjust your four-year plan as necessary in Naviance Family Connection and make informed course selections for your sophomore year.
- Continue to research careers, majors and colleges in Naviance Family Connection, and visit college campuses when you have the opportunity.

Sophomore Year – Fall
- Continue to focus on the importance of high school and make good academic decisions.
- Visit college websites and even college campuses when you get the opportunity.
- Do your best on the PSAT in October. It is free for all sophomores and given during the school day.
- Be responsible for your education. Make sure your academic grades reflect your true ability and efforts. Take courses at the most challenging level you can.
- Continue to talk with your parents about planning for college costs.
- Get involved in activities outside the classroom. Work toward leadership positions in activities you like best.
- Make a visit to your counselor – establish a strong connection.
- Visit the College and Career Center.
- Attend District College Night.
- Continue to do your research on careers, majors, and colleges in Naviance Family Connection.

Sophomore Year – Spring
- Continue to monitor college/work and/or technical training entrance requirements for changes. Modify your four-year plan in Naviance Family Connection as these change – or as you change your focus. Be flexible and proactive!
- Continue to research careers, majors, and colleges and the requirements of each through Naviance Family Connection and by visiting the institutions’ websites. Begin to narrow down choices.
- Start looking at scholarship and financial aid options for when you are a senior.
- Meet with your counselor and visit the College and Career Center.

Junior Year – Fall
- Use Naviance Family Connection for college information to help you start narrowing your college/technical school/career choices.
- If interested in a military career, be sure to visit with local recruiters and/or get information about starting the military academy application process.
- Do your best on the PSAT in October. The district pays for all juniors to take the test. This is the qualifying test for National Merit Semifinalists.
- Continue to visit college and/or technical school campuses. Begin to focus on what you are really looking for in a post-secondary experience.
- Speak to college representatives who visit your high school.
- Continue to focus on the importance of high school and make good academic decisions.
- Be responsible for your education. Make sure your academic grades reflect your true ability and efforts. Take courses at the most challenging level you can handle.
- Research all financial aid, scholarships, loans, and grants that are available, through institutions, as well as through public/private agencies, churches, and organizations.
- Through Navinance Family Connection, continue to research college requirements, tuition and fees, other costs, student activities, course offerings, financial aid, etc. for any institutions in which you are interested.
- Continue to visit with your counselor and spend time in the College and Career Center.
- Participate in the District College Night.

Junior Year – Spring
- Continue to conference with your counselor to make sure you are on track for graduation.
- Update your 4-year plan in Naviance Family Connection.
- Take the SAT, ACT, and/or SAT Subject Tests.
- Check your class rank in Naviance Family Connection.
- Remember, colleges like upward trends.
- Make good choices in selecting senior year classes. Consider an AP class. Do NOT plan to slack off your senior year.
- Begin work on your college essays.
- Register for and take appropriate AP exams.
- Stay involved with your extracurricular activities.
- Visit campuses of those institutions in which you are interested.
- Continue to research information about colleges, careers, and majors in Naviance Family Connection.
- Attend Destination College in mid-June to become more comfortable with the senior year application process.

Senior Year – Fall
- Be responsible for your own education. Make sure your academic grades reflect your true ability and efforts. Take courses at the most challenging level you can.
- Take SAT or ACT again if necessary and SAT Subject Tests, if required by your college.
- Perfect college essays.
- Make final decisions about institutions to which you will apply. Begin the application process, paying close attention to deadlines. Be sure to turn in requests for processing 2 to 3 weeks in advance.
- Track your college applications and scholarship applications through Naviance Family Connection.
- Ask for letters of recommendation in a timely manner. Remember, teachers and counselors have many letters to write, so give them ample time to craft a letter that will showcase you in the best way possible.
- Observe housing and financial aid deadlines.
- Request and track transcripts through Naviance Family Connection. Be sure requests are made well ahead of time.
- Research scholarship opportunities in Naviance Family Connection, and apply to as many as you qualify for.
- Attend Financial Aid Night.
- Pay close attention to audition and portfolio deadlines, which may differ from actual application deadlines.

Senior Year - Spring
- Continue to complete and submit scholarship applications.
- Complete and submit the FAFSA.
- Register for and take AP exams.
- Do NOT let down during the last semester. You still have to send a final transcript!
- Complete the senior exit survey in Naviance Family Connection.
Be sure all your college acceptances and scholarship awards are recorded in Naviance Family Connection and that you complete your Senior Survey. This is intended to encourage you to think about your future. Always seek information from parents, teachers, counselors, and college personnel. Ask questions!

NCAA Guidelines for College-Bound Athletes

The NCAA Guide for the college-bound student athlete can be downloaded at www.ncaapublications.com

Contact campus NCAA designee.

Exploring Post-Secondary Options

In addition to online resources and those available from the counseling center at your campus, Conroe ISD offers several venues to assist you in planning for post-secondary pursuits

1. College Night, held during the month of September, gives students and their parents an opportunity to visit with representatives from colleges and universities throughout the United States. Basic financial aid information is also presented.
2. Financial Aid seminars offer information related to financial need and explores such topics as completing the Free Application for Federal Student Aid (FAFSA), types of financial aid available, and other concerns of parents trying to pay for post-secondary education and training. Speakers at Financial Aid seminars present information to parents in all phases of saving for college.
3. Military Academies Night is for those students interested in pursuing appointments to one of the five military academies throughout the United States. Information covered includes a general background about what programs of study are available at each academy and how to proceed with applying to these academies. While all students are welcome, it is recommended that those seriously considering an appointment to an academy attend one of these meetings as early in their high school program as possible.
4. Campus-led informational nights are offered by each secondary campus for assisting students with college and financial aid information. Please see your counselor for more information.
A career cluster is a group of occupations and industries in related fields of study. Texas has adopted 16 career clusters. Within each cluster are pathways which are more specific groupings of similar occupations. To prepare for these occupations, students would select a program of study which in high school involves course selection. The goal is to have a seamless course of study from high school into college or other postsecondary education or training program. The electives students choose can complement their academic classes to prepare them for the challenges of the real world. An in-depth look at the clusters can be viewed online at these websites: www.achievetexas.org and www.careerclusters.org.

<table>
<thead>
<tr>
<th>Career Cluster</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agriculture, Food &amp; Natural Resources</td>
<td>The production, processing, marketing, distribution, financing, and development of agricultural commodities and resources including food, fiber, wood products, natural resources, horticulture, and other plant and animal products/resources.</td>

</tbody>
</table>
The District offers career and technical education programs in a variety of areas. Courses offered are listed in the Career and Technical Education section of this guide. These courses are designed to meet a variety of needs and interests in technical and practical areas. Students from all academic levels enroll in these courses that integrate academic and application skills. Lone Star College – Montgomery and Conroe ISD have established the method by which students in identified technical preparatory classes will receive credit toward certain programs and/or degrees when the student completes high school and is enrolled in the program at the college. The District will take steps to ensure that lack of English language skills will not be a barrier to admission and participation in all educational and career and technology programs.

Students who complete Career and Technical Education courses may obtain the following industry certifications and licenses. However, due to instructional requirements, time in class may be limited to pursue certification. For more information on the certifications and licenses available, consult your counselor or Career and Technical Education teacher.

</table>
Students who plan to attend a community college may want to consider taking one or more articulated courses which can count toward an Associate of Applied Science degree (such as Automotive Technology, Paralegal Studies, Nursing, Veterinary Technology, and many others). Course articulation is dependent upon teacher certification. Students may take articulated courses their freshman or sophomore years, but must take an articulated course in their junior and/or senior year in order for those courses to be counted at the college level. The Lone Star College System has partnered with universities across Texas to build articulation agreements for graduates with AAS degrees. This will allow them to pick up immediately at the university where they left off at the community college. Students who think they might be interested in taking these classes should see their counselors.
Grading and Class Rank System

Grade Point System, Class Rank, and Other Grade-Related Issues

In an effort to recognize those students who have taken a more rigorous course of study, CISD has developed the following system for calculating GPA’s:

<table>
<thead>
<tr>
<th>Grade Range</th>
<th>Letter Grade</th>
<th>*AP/DC</th>
<th>PreAP/H</th>
<th>Level &amp; All Other Courses</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

*Includes all AP courses plus dual credit required core courses taught on the high school campus.

Summa Cum Laude: Students who rank in the top 5% of their class according to GPA and have been enrolled in a CISD high school since January of their junior (11th) grade year.

Magna Cum Laude: Students who rank between the top 5% and 10% of their class according to GPA

Cum Laude: Students who rank between the top 10% and 15% of their class according to GPA.

Beginning with sophomore year, students will receive class ranks (in Naviance Family Connection) each semester

Midyear Senior ranks will be released as quickly as possible after the end of the first semester (usually the end of January).

Final senior rank is determined mid-April, which will include the first nine weeks grades of the second semester in order for campuses to determine graduation honors before graduation. Midyear graduates are included in the senior class membership in order to maximize the total number of end-of-year awards/honors. Ranks are based on semester grades.

State Awards
1. Students must be selected from the Summa Cum Laude graduates.
2. In the event that two or more students have the same grade point average, the awards will be determined by calculating numerical averages.

GPA Exempt Courses

Conroe ISD strives to encourage students to pursue their areas of special talents and interests to enrich their academic experiences and achievements. The GPA exemption is in place to allow students to exempt up to two credits during their high school career in campus based programs. We believe this will foster continued and increased involvement in extra-curricular programs and ensure that all of our students have access to a well-rounded education.

For more information regarding GPA Exempt Courses, refer to the GPA Exempt Courses flyer.

Grades

All semester grades for any courses taken are entered on the transcript. Grades are closed one semester after the end of any course. (Due to summer schedules, questions may be submitted for grades earned the final grading period until July 1 of the same year.) Since grade changes affect GPA, and ultimately the ranks of other students, it is very important to take care of these issues in a timely manner.

Transcripts

Grades for all courses taken are placed on the transcript and may not be removed. This includes courses taken at the junior high campuses for high school credit; however, junior high school courses are not calculated in the high school rank – any courses taken after completion of 8th grade are calculated in class rank.
The transcript is the official student academic record. Transcripts include grades and credits for all courses attempted, grade point averages, class rank, and standardized state test scores.

Transcripts for currently enrolled students can be requested through the appropriate campus office. **Students 18 years and older must give written permission in order for a parent or other party to receive a transcript.**

**Unofficial transcripts** may be requested by the student and/or parent or guardian and given directly to the person requesting it. Students may make copies of their unofficial transcripts.

**Official transcripts** are transmitted directly from the campus to an authorized requesting institution. Official transcripts must be mailed by the registrar of the campus and may not be delivered by hand.

---

### Courses Taken for No Credit or Retaken for Mastery

All courses taken receive a grade and are shown on the transcript. Courses taken and passed for the first time are computed in the rank. Any course previously passed and retaken for mastery will show on the transcript with the grade received but is not computed in the rank. Any course taken by a student counts in determining eligibility for no pass/no play purposes.

### Grade Averaging for 2-Semester Courses

High school students failing the first semester of a two-semester course, but who pass the second semester of that course, shall receive credit for both semesters when the average of the two semesters of the course is at least 70. Students who pass the first semester but fail the second semester must repeat the second semester of the course.

Students passing the first semester of a math or a LOTE course, but failing the second semester, must repeat the second semester in an approved summer school course earning a passing grade, or repeat the entire course the following school year (taking the first semester for no credit) earning a passing grade of 70 or better for the second semester.

---

### Grade Level Classification Requirements

The listing below is a summary of the minimum number of state credits needed to be classified as a Freshman, Sophomore, Junior, or Senior:

- **Freshman:** 0 - 5.5 credits
- **Sophomore:** 6-11.5 credits
- **Junior:** 12 - 17.5 credits
- **Senior:** ≥ 18 credits

Students are reclassified during July at the end of each school year. **An exception could be made for 11th grade students who file an early graduation plan with the counselor at the end of the tenth grade year. These students will be reclassified to the twelfth grade after the first term of their junior year if they are in the process of meeting all graduation requirements by May of that year. Check with your child’s counselor for more information about early graduation.**

Local credit, which does appear on the transcript, is not included in determining credits for grade level classification and class rank.

---

### Transfers and Transfer of Credit

Credit is awarded when an official transcript is received from the previous accredited school attended. Credit is awarded for all courses recognized by the Texas Education Agency. In order for **home schooling or private school course credit(s)** to be awarded, one of the following criteria must be met:

1. Transcript received from an accredited school.
2. Transcript received from a non-accredited home school, non-accredited private school, or other organization, and

   A. Documentation of the curriculum followed and work completed by the student in each subject area must be provided. This documentation is reviewed based on the Texas curriculum guidelines (TEKS). Examples of documentation include:

   - **Curriculum Followed**
   - Lesson or unit plans
   - Course syllabi
   - Course goals and objectives
   - Course scope and sequence
Grading and Class Rank System

Work Completed
Tests and results
Journals
Videos
Portfolios
Laboratory reports
Progress reports
Art work projects

If documentation is determined to be insufficient, credit-by-exams will be administered in the highest level of core classes completed in home school. If the student scores a 70 or above, credit will be awarded for all credits from the home school that match the state requirements – just as in any other transfer classes.

1. Credit by examinations in each individual subject area are per semester (1/2) credit. The cost of the examination(s) is covered by the school.
2. A secondary student assessed by credit-by-examination should be given adequate time to prepare for the test, particularly if multiple subject examinations are required.
3. Grades recorded on the transcript will be those recorded by the home school or unaccredited school transcript. If no grades are sent, “P’s” will be awarded.

In determining whether a transfer grade should receive the extra grade points awarded similar courses at the receiving school, the following criteria will be used:

1. The sending school must be accredited and the course in question must be recorded on the transcript as “above level” (e.g. Honors or AP), and
2. The receiving school must offer that course at the same level.

These criteria will be used for both intra-district transfers as well as inter-district transfers.

Grade Transcription

Often a student may enter from another school that has a different grading system from CISD. In that case, grades will be transcribed in the following manner:

1. Convert numerical grade to sending school’s letter equivalent.
2. Convert letter equivalent to our grading scale.

Example: An incoming student’s grading scale is
94-100=A
85-93 =B
78-84 =C
70-77 =D
If that student has a 91 in English – 91= B (85) with appropriate grade points.

The scale to be used is:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>98</td>
</tr>
<tr>
<td>A</td>
<td>95</td>
</tr>
<tr>
<td>A-</td>
<td>92</td>
</tr>
<tr>
<td>B+</td>
<td>88</td>
</tr>
<tr>
<td>B</td>
<td>85</td>
</tr>
<tr>
<td>B-</td>
<td>82</td>
</tr>
<tr>
<td>C+</td>
<td>79</td>
</tr>
<tr>
<td>C</td>
<td>77</td>
</tr>
<tr>
<td>C-</td>
<td>75</td>
</tr>
<tr>
<td>D+</td>
<td>74</td>
</tr>
<tr>
<td>D</td>
<td>72</td>
</tr>
<tr>
<td>D-</td>
<td>70</td>
</tr>
<tr>
<td>F</td>
<td>65</td>
</tr>
</tbody>
</table>

For those grading systems which award credit for grades in the 60’s, those grades will be recorded as “70”.

If any parent or student has a concern about the effect of this transcription on college admissions, the issue can be addressed in an counselor letter which, along with a copy of the former school’s transcript, can be attached to the present transcript and mailed with each application.

Grades from Other Countries

Foreign transcripts will be evaluated in the following manner:

1. Transcripts from American or International schools with grading systems equivalent to the District’s will be transcribed as any other domestic transcript. Every effort will be made to transcribe to CISD’s numeric grading system.
2. Transcripts that reflect grading systems dissimilar to the District’s will be evaluated and grades of “P” or “F” will be awarded. These grades will not be assigned grade points nor computed in the student’s GPA.

3. For those records coming from countries who administer examinations rather than award course grades, course curriculum will be evaluated, examination grades noted, and “P’s” recorded for equivalent courses on the receiving campus.

Academic Lettering

Academic awards including academic lettering are presented only to students currently enrolled in the District. Students meeting the following are eligible to receive an application for academic lettering:

1. A sophomore student having a cumulative average of 90 for all subjects or a GPA of 4.1 or greater during his/her freshman year is eligible to receive a jacket and/or letter with no bars;

2. A junior student having a cumulative average of 90 for all subjects or a GPA of 4.2 or greater during his/her sophomore year is eligible for a letter jacket and/or letter with no bars;

3. A senior student having a cumulative average of 90 for all subjects or a GPA of 4.3 or greater during his/her junior year is eligible for a letter jacket or a letter with the appropriate number of bars.

4. Transfer students will become eligible to receive the appropriate award only after completing one full year at a District high school in which the grade requirements (as outlined above) are met and their transfer grades meet the grade requirements of the award. The award will be given the fall semester of the following school year.

5. A student must complete the academic letter application and return it to the campus counseling center by the designated date. A student may receive only one jacket during his or her high school career.

6. Students must be currently enrolled to receive a jacket or a letter.

Eligibility for Extracurricular Activities

At the end of the first six weeks, any student receiving a grade below a 70 in any class (except those identified as Advanced – see list below) is ineligible until the end of the nine-week grading period. If passing all classes at that time, the student will regain eligibility. From that point forward, students may lose eligibility at the end of each nine weeks. (Nine weeks grade in each course determines eligibility, not semester exams or semester averages.)

- At the end of a semester, eligibility of the student is determined by the Nine Weeks Grade, not the semester exam or the Semester Average.

Eligibility can be regained at the three-week progress report if the student is passing all classes with a 70 or better.

- There is a one-week grace period before a student loses or regains eligibility.

- Students who score below a 70 in certain advanced courses (listed below) may petition the building principal for a waiver. All decisions by the principal are final.

For additional information regarding No Pass, No Play, consult the TEA – UIL Side by Side at http://www.utexas.edu/uis/.
Conroe ISD courses which may be waived in accordance with campus procedures and with principal approval (Advanced Classes Identified for No Pass, No Play Exemption):

**Approved High School Courses:**

*May waive no more than 2 courses per grading period.*

Advanced Placement Courses:
- All

Dual Credit Core Courses:
- All

English:

**Approved Junior High School Courses:**

*May only waive 1 course per grading period.*

English:
- PreAP Language Arts

Mathematics:
- PreAP Math
- Algebra I
- Geometry

Science:
- PreAP Science

Social Studies:
- PreAP Texas History
- PreAP U.S. History
Selection of Courses for Next Year

**General Information**

In the course description section you will find a brief description of every course offered in Conroe ISD high schools as well as any possible prerequisites. Students are urged to carefully plan their course selections. Although students will receive specific instructions and assistance from school counselors during the preregistration process, the responsibility for selecting appropriate career and graduation choices rests with students and parents. It is very important that students and parents give careful consideration to selecting appropriate courses. The choices students make determine the master schedule of course offerings available. The master schedule is designed to maximize student opportunities and minimize scheduling conflicts.

**Elective Courses**

Elective courses are offered and will be taught dependent upon the number of students who sign up for each course. While selecting courses for the next school year, a student should also choose alternate electives which will be substituted in the event that the first choice elective is not being taught, is full, or conflicts with a required course. The number of elective offerings is based upon students’ selections in the spring. Students who fail to list alternates will be placed in available courses which will fill the student’s schedule. These courses are not eligible to be changed. In the case of limited space availability for an elective class, seats will be awarded based on grade level classification with preference given to upperclassmen.

**Local Credit Courses**

Courses receiving “local credit” do not qualify as state requirements for graduation or count for determining grade level classification. This means that local credit courses do not count toward graduation. The student’s counselor can best assist in determining whether or not the individual should take a “local credit” course. While local credit courses do not count toward graduation requirements and classification purposes, these courses do count for no pass/no play eligibility for extracurricular activities.

**Schedule Changes**

Principals select and hire teachers and create the master schedule based on the student course requests. Because these selections determine the schedule, student schedule changes will be made if only placement mistake has been made. Students receive a verification of the courses that they have selected in the spring. At that time, they will have the opportunity to change selections. Changes after this time will be done only if students have not taken the required prerequisites for a course or who have been misplaced in a course. In the event of a student being placed in the wrong course, he/she must continue to attend the scheduled class until the counselor makes the schedule correction. When a semester begins, administrative changes sometimes occur due to an imbalance of numbers in classes. Students should choose electives and alternates carefully. Those decisions are binding. Each campus sets the deadlines for submitting course changes.

**Level Changes**

CISD strongly believes that PreAP, AP, and Dual Credit courses provide enhanced academic opportunities for students that will assist them in future academic or nonacademic pursuits. At the same time, the District recognizes that students may experience initial surprise or difficulty in managing the increased course requirements. A struggling student and his/her parent/legal guardian should schedule a conference with the teacher and counselor in order to create strategies to be implemented over a period of time. To ensure students allow sufficient time to become acclimated to the classes and what the PreAP and AP curriculum can offer, the District expects that any student who enrolls in the PreAP or AP class will remain in the course for the entire year. It is essential that the student give his/her maximum effort to succeed. At the end of the first semester, administration, the parents, teacher, and student may evaluate the plan established earlier in the semester and current student progress and may make an adjustment to the student’s schedule. Any change will only be made on a space available basis.

- *Algebra II Precalculus
- Statistics AP
- College Algebra H
- College Algebra DC

*NOTE: The following courses may also count as a fourth math credit: Mathematical Applications in Agriculture, Food, and Natural Resources (must be taken as a fourth math course prior to Algebra II), Engineering Mathematics, Statistics and Risk Management, Advanced Quantitative Reasoning, AP Computer Science.
Other Credit Opportunities

Campus Permission

Students who wish to take any course outside of the traditional schedule must get administrative approval. This includes correspondence courses, virtual on-line courses, credits-by-exam, dual credit, summer school and any college summer programs. This allows the school the opportunity to evaluate the program to determine what, if any, credit can be awarded.

For graduating seniors, all courses required for graduation taken outside the school day must be completed by the beginning of the second semester. This includes the course final.

Virtual/Online Courses

The Texas Virtual School Network (TxVSN) has been established as one method of distance learning. A student has the option, with certain limitations, to enroll in a course offered through the TxVSN to earn course credit for graduation. In limited circumstances, a student in grade 8 may also be eligible to enroll in a course through the TxVSN. A student who enrolls in a TxVSN course for which an end-of-course (EOC) assessment is required, the student must still take the corresponding EOC assessment. Enrollment in courses through the TxVSN is not subject to limitations the District imposes for other distance learning courses.

Students interested in taking online courses must see their counselor for information. It is important for students to know that online courses are rigorous, and are 100% TEKS aligned.

Virtual learning course grades are entered on the student’s transcript and counted in the GPA calculation as level grade points unless the course is approved as and Advanced Placement course.

Distance learning courses count toward academic UIL “No Pass/No Play” eligibility and are evaluated in accordance with the District eligibility calendar that can be found on the District’s website.

Students should be aware that virtual or online courses may not count towards NCAA eligibility.

It is recommended students go to the link http://lonestar.readi.info/assessmentpublic.login, and take the SmarterMeasure Assessment to determine their potential for success with online courses. A student should be serious when taking an online course, and should exhibit some of the following attributes and skills in order to be successful when taking an online course: self-starter, effective time manager, proficient in the use of technology, self-disciplined, keyboarding skills.

CISD has an agreement to offer online Dual Credit courses through Lone Star College- Montgomery.

Correspondence Courses

The District permits high school students to take up to two credits via state approved correspondence courses. Correspondence courses are courses taken through the mail or online for high school credit. Typically students are permitted to only take elective offerings. Students are not permitted to take core academic subjects by correspondence and may be enrolled in only one correspondence course at a time. The campus principal must approve any exceptions. Correspondence courses must be taken from state-accredited institutions of higher education and require approval prior to enrollment. This includes the course final.

- Correspondence course grades are entered on the student’s transcript and count in the GPA calculation as level grade points.
- NCAA eligibility may be affected.
- Students should be aware that no pass/no play rules are applicable to classes taken outside of the regular day for high school purposes. Failing a correspondence course will result in ineligibility.

Credit by Exam

The National Collegiate Athletics Association (NCAA) guide states that these examinations do not count for core Grade Point Average in determining eligibility.

There are two types of Credit by Exam:

Credit by Exam for Credit Recovery
(taken class and failed or not completed)
A student who has received prior instruction in a course or subject, but did not receive credit for it may, in certain circumstances, be permitted to earn credit by passing an exam on the essential knowledge and skills defined for the course or subject. To receive credit, a student must score at least 70 on the exam. The attendance review committee may offer a student with excessive absences an opportunity to earn credit for a course by passing an exam. A student may not use this exam to regain eligibility to participate in extracurricular activities. Students may not take a credit by exam for the purpose of recovering credit while they are still enrolled in the course. For seniors, this means that students are not eligible to take an exam for recovering credit until the final exams begin. Students are responsible for the cost of this exam. The student will have the grade and grade point of the test recorded on his/her transcript.

Credit by Exam for Acceleration
(has not taken class before)
Note: This option is not available for EOC courses.

A student will be permitted to take an exam to earn credit for an academic course for which the student has not had prior instruction. The student must score an 80 or above in order to receive credit. These scores are not computed in the Grade Point Average (GPA). These exams will be scheduled four times per year. Consult your child’s counselor for specific times and locations.

If a student plans to take an exam for credit recovery, the student or parent must register with the counselor no later than 30 days prior to the scheduled testing date. If the student plans to take an exam for acceleration, the student or parent must register online on the CISD website.

High School Courses Taken in Junior High

All grades for high school courses taken in junior high school will appear on the high school transcript. High school courses taken during the 7th and/or 8th grades will be given the actual grade on the transcript, but the grades will not count in the calculation of the student’s high school grade point average (GPA). Any course taken after completion for 8th grade are calculated in class rank. High school credit will be awarded if a student passes the course. Credits for high school courses are awarded in half-credit units.

Students may earn high school credit for the course only once.

Campus Computer-Assisted Courses

Students taking courses on the computer to recover a semester (or more) credit for a course previously failed, will be awarded a numeric grade and grade points for that computer-assisted course. Principal (or his/her designee) approval must be received for a student to take any computer-assisted course as a first time offering. Courses taken as a first time offering will earn grade points and be calculated in class rank.

Off Campus Physical Education Program Guidelines

The purpose of the Off Campus Physical Education (OCPE) program is to accommodate students who are making a serious effort to develop higher-level skills in a specific activity that exceeds what the school district can offer through the general physical education program. The OCPE program allows students in 7th through 12th grades to earn credits that meet the district and state physical education graduation requirements. Students are expected to be physically educated, along with being physically active. Students are expected to show accountability of skill development as well as learned physical activity. Knowledge of Health concepts and age appropriate social development are also requirements of the Texas Essential Knowledge and Skills for Physical Education.

Category I: Olympic/National Level - for Junior High and High School:
Online Applications will be available to students in March 21, 2016. Completed online applications are due no later than Sunday, May 1, 2016.

1. Participation includes a minimum of 15 hours per week of highly intensive, professional, supervised training.
2. Participation hours are achieved only during instructional time not for competitive or game events. Animal care and grooming do not apply to participation hours.
3. The training facility, instructors, and the activities involved in the program must be certified by the superintendent as highly qualified.
4. Students qualifying and participating at this level may be dismissed from school one hour at the end of the day. No team sports. Students dismissed may not miss any class other than physical education.
5. Off campus physical education is only available to students participating in individual sports.
6. High school students are not eligible to participate in programs that the UIL offers in CISD.
7. Students who drop out of the program prior to the end of semester will be scheduled into a campus physical education class. No credit is awarded.
8. Students are not allowed to change facilities or activity programs during the year.
9. Different programs may not be combined to meet Category I minimum time requirements.
10. Transportation is not provided by CISD.
11. Background checks are not provided by CISD.
12. Students are responsible for all fees associated with the activity.

Category II: Junior High and High School:
Online Applications will be available to students in March 21, 2016. Completed online applications are due no later than Sunday, May 1, 2016.

1. Participation includes a minimum of 5 hours, but less than 15 hours per week at a private or commercially sponsored agency that provides physical activities which include those certified by the superintendent to be of high quality and well supervised by highly qualified instructors.
2. Off campus physical education is only available to students participating in individual sports.
3. High school students are not eligible to participate in programs that the UIL offers in CISD.
4. Students participating in Category II waivers may not be dismissed from any part of the regular school day.
5. Transportation is not provided by CISD.
6. Background checks are not provided by CISD.
7. Students are responsible for all fees associated with the activity.

Club Sports: Junior High and High School:
Applications will be available to students in March, 2016. Completed applications are due no later than Monday, May 2, 2016. Students should see their counselor for details regarding club sports.
Applications for club sports are not available online.

1. Club sports are approved by the campus principal.
2. Club sports must have a campus faculty sponsor or coach.
3. Club sport participants must comply with participation requirements as outlined by the UIL and “No Pass-No Play” guidelines.
4. Students attending a campus without a specific club sport may participate with an approved alternate campus.
5. Students participating in club sports may not be dismissed from any part of the regular school day.
6. Transportation is not provided by CISD.
7. Students earn .5 physical education credits for the school year.

Summer School 2017

Summer school courses are generally offered for remediation. However, some first-time credit opportunities are available. These courses are subject to student interest and availability. Grades in all summer courses will apply to grade point average and eligibility for extracurricular activities. (Summer school grades will not be averaged with a first semester grade.) High school courses taken by entering ninth graders who have successfully completed eighth grade will count towards the student’s GPA. Students should consult the National Collegiate Athletics Association (NCAA) as to whether these courses count for core Grade Point Average. Students are charged a fee for summer school courses. Registration opens in April 2017.

High School Acceleration/Initial Credit courses
Location: TBD Dates: TBD
- Art I
- Communications Applications*
- Economics
- English IV B
- Environmental Systems
- ESL Academy I, II, III (Earms ½ credit only)
- Government
- Health
- Math Models
- Precalculus
- Spanish II
- Spanish III PreAP
- Team Sports
- U.S. History Dual Credit
- World Geography
*Not a required course for graduation for students entering 9th grade in 2015.

High School Credit Recovery courses
Location: TBD Dates: TBD
- Algebra I
- Algebra II
- Art I
- Biology
- Chemistry
- Communications Applications
- English I, II, III, IV
- Geometry
- Government
- Economics
- Health
- Math Models

Other Credit Opportunities
Online Accelerated Math Initial Credit for the following courses will be offered in an online blended virtual course. In order to be approved for these courses, students must have a minimum grade average of 80, and are recommended to have scored at final Level II on the previous year’s STAAR exam in mathematics:

- **7th grade Math** (for 6th graders going into 7th grade transitioning to PreAlgebra),
- **8th grade PreAlgebra** (for 7th graders going into 8th grade transitioning to Algebra I),
- **Algebra I** (for 8th graders going into 9th grade transitioning to Geometry PreAP), and
- **Geometry PreAP** (for 8th graders going into 9th grade who have successfully completed Algebra I and have principal approval to take Geometry PreAP during the summer and for 9th graders going into 10th grade transitioning to Algebra II)
- **PreCalculus PreAP**

Registration: TBD
Dates: TBD   Location: TBD
Parent Meetings: TBD   Location: TBD

**Junior High** Summer School
Location: TBD   Dates: TBD

Courses offered for credit recovery:

- 7th/8th grade Language Arts
- 7th/8th grade Math
- 7th/8th grade Science
- 7th/8th grade Social Studies
- Chinese Enrichment (not for credit)

STAAR re-testers for Math or Reading will report
Location: TBD   Date: TBD
Retest dates: TBD (Math) TBD (Reading)
Catalog of Courses: Senior High

Courses are offered by all schools unless otherwise noted.
CC=Caney Creek  CH=Conroe HS  
O=Oak Ridge  CP=College Park  W=The Woodlands

Science

012 Biology
Transcript Code: BIO
Credit: 1
Biology is a lab-oriented course involving a survey of living systems and their interrelationships. Topics include scientific method, biochemistry, cell structure and function, DNA structure and function, genetics, growth and development of organisms, taxonomy, kingdoms and ecology. Laboratory skills and safety are stressed. Investigations, both individual and group, are integral components of the course. The topics will be covered with more depth of theory and with higher expectations than level Biology.

014 Biology PreAP
Transcript Code: BIO
Credit: 1
This is an accelerated laboratory/lecture course. Topics include scientific method, biochemistry, cell structure and function, DNA structure and function, genetics, human body systems, taxonomy, kingdoms and ecology. Laboratory skills and safety are stressed. Investigations, both individual and group, are integral components of the Pre-AP curriculum and may be performed both inside and/or outside of class.

015 Biology AP
Transcript Code: AP-BIO
Prerequisite: Biology and Chemistry (Pre-AP recommended)
Credit: 1
The advanced placement biology program provides an opportunity for high school students to pursue college level course work and prepare for an exam that allows for college course credit. AP Biology students will be introduced to advanced topics and current aspects of biology, including these areas: biochemistry, cell structure and function, energy transformations, molecular genetics, heredity, natural selection, an overview of organisms and populations, plant and animal physiology, and ecology. Laboratory work is emphasized. A summer assignment will be required. Students are required to take the AP Biology exam.

021 Chemistry
Transcript Code: CHEM
Prerequisite: Biology and Algebra I
Credit: 1
Chemistry is a lab-oriented course that introduces the basic concepts of inorganic chemistry. Topics include scientific measurement and calculations, lab skills, atomic structure, chemical formulas, equations and stoichiometry, chemical bonding, states of matter, solutions, acids and bases, and nuclear chemistry. Laboratory skills and safety procedures are stressed.

023 Chemistry PreAP
Transcript Code: CHEM
Prerequisite: Biology and Algebra I and concurrent enrollment in Geometry or Algebra II (PAP recommended)
Credit: 1
Pre-AP Chemistry is a rigorous introductory course for students on an accelerated math and science track. Topics include scientific measurement and calculations, lab skills, atomic structure, chemical formulas, equations and stoichiometry, chemical bonding, states of matter, solutions, acids and bases, and nuclear chemistry. The topics will be covered with more depth of theory and with higher mathematical expectations than level Chemistry. Laboratory skills and safety are stressed. Investigations, both individual and group, are integral components of the Pre-AP curriculum and may be performed both inside and/or outside of class.

024 Chemistry AP
Transcript Code: AP-CHEM
Prerequisite: Chemistry and Algebra II (Algebra II may be concurrent, Pre-AP recommended)
Credit: 1
The course is equivalent to an introductory college course in chemistry. The topics covered follow Advanced Placement guidelines and include: atomic structure, balancing chemical equations, stoichiometry, acids and bases, equilibrium, kinetics and periodic trends. Laboratory investigations requiring formal laboratory reports will be performed 1-2 times per week. Students may be required to participate in additional class meetings for laboratory sessions outside of regular school hours to better prepare for the exam in May. Students are required to take the AP Chemistry exam.

026 Applied Chemistry
Transcript Code: CHEM
Enrollment is determined by levels of success in prior math and science classes and prior STAAR scores.
Credit: 1 (CP)
Understanding how chemistry applies to daily life is the major emphasis of this course. The topics include scientific measurement and calculations, chemical formulas and equations, stoichiometry, atomic structure, chemical bonding, states of matter, and solutions. This is a course for students with limited mathematics skills.

028 Physics I AP
Transcript Code: APPHYS I
Prerequisite: Chemistry, Algebra II (Pre-AP recommended)
Credit: 1
AP Physics I AP is equivalent to a first-semester college-level physics course. Major topic areas of study include Newtonian mechanics, work, energy, power, mechanical waves, and sound. Problem-solving will be rigorous. A variety of hands-on laboratory investigations and inquiry activities will be included.

029 Physics II AP
Transcript Code: APPHYS 2
Prerequisite: Physics I AP
Recommeded (CH, O, W)
Credit: 1
AP Physics 2 is equivalent to a second-semester college level physics course. It is designed for students who are planning to major in pre-med or a life science. Major topic areas of study include fluid mechanics, thermodynamics, electricity, magnetism, optics, atomic and nuclear physics. Problem solving will be rigorous. A variety of hands-on laboratory investigations and inquiry activities will be included.

031 Physics
Transcript Code: PHYSICS
Prerequisite: Chemistry and Geometry
Credit: 1
Physics is a lab-oriented course that studies motion and energy. A combination of laboratory experiments and theory are used to develop the following topics: velocity, acceleration, forces, momentum, energy, heat, sound, electricity, and light.
and human environmental problems, both natural and human-made, and alternative solutions for resolving and/or preventing them.

041 Aquatic Science
Transcript Code: AQUA SCI
Prerequisite: 3 credits of Science
Credit: 1
This course introduces students to the study of aquatic environments and organisms. Topics include: water quality, chemical and physical properties of water, fresh and salt water plants and animals. Students will participate in field work and be required to use basic algebra skills within the context of scientific problem solving.

042 Astronomy
Transcript Code: ASTRMY
Prerequisite: 3 credits of Science
Credit: 1
A study of the cosmos is offered in this course. Topics include: planets, comets and asteroids in our solar system, galaxies, life and death of stars, theories on the evolution of the universe, and instruction on the dynamics and viewing of constellations in the night sky, space flight, and history of the sun, the moon, and possibility of life elsewhere. Mathematics is a minor but necessary component of the course.

044 Environmental Science AP
Transcript Code: AP-ENVIR
Prerequisite: Chemistry and Geometry
Credit: 1
The Advanced Placement course in Environmental Science is designed to be the equivalent of a one-semester, introductory college course in environmental science. Its goal is to provide students with the scientific principles, concepts, and methodologies to understand the interrelationships of the natural world; to identify and analyze environmental problems, both natural and human-made; to evaluate the relative risks associated with these problems; and to examine alternative solutions for resolving and/or preventing them. Students are required to take the AP Environmental Science exam.

K533 Robotics & Automation
Transcript Code: ROBOTA
Prerequisite: Concepts of Engineering, Technology, and Electronics
Recommended for 11-12
Credit: 1 (CC)
Students enrolled in this course will demonstrate knowledge and skills necessary for the robotic and automation industry. Through implementation of the design process, students will transfer advanced academic skills to component designs in a project-based environment. Students will build prototypes or use simulation software to test their designs. Additionally, students explore career opportunities, employer expectations, and educational needs in the robotic and automation industry.

K536 Scientific Research and Design II: Electronics and Robotics Honors
Transcript Code: SCIR02
Credit: 1 (CH, O, CP)
The first semester of this course will introduce students to scientific research and to prepare them for their Individual Experimental Research Project (IERP). Students will learn problem identification, methods of library and computer searching, research methodologies, and data analysis and presentation. Students will also develop appropriate skills in computer applications, time management, and technical writing. Verbal and graphic communication opportunities will be provided. The concept of the research team will be explored, and importance of peer review and research ethics will be stressed.
agricultural, medical, regulatory, and forensics. Students will have the opportunity to use sophisticated laboratory equipment, perform statistical analysis, and practice quality-control techniques.

**K55 Anatomy and Physiology Honors**

Transcript Code: ANATPHYS  
Prerequisite: Biology and Chemistry  
Credit: 1  
This course is an in-depth study of the systems of the human body. Each system is investigated using illustrations, microscope slide studies, physiological experiments, computer simulations, and detailed dissections of the cat.

**K56H Medical Microbiology Honors**

Transcript Code: MICRO  
Prerequisite: Anatomy & Physiology or concurrent enrollment  
Credit: 5 (CH, O)  
Students will study the relationships of microorganisms to wellness and disease. They develop knowledge and skills related to disease prevention by learning the chain of infection, asepsis, and standard precautions. Pathogenic and nonpathogenic organisms will be identified to assist in the understanding of specific diseases, causative agents, and treatment options.

**K57 Pathophysiology Honors**

Transcript Code: PATHO  
Prerequisite: Anatomy and Physiology or concurrent enrollment  
Credit: 5 (O, CP)  
This course allows students to conduct laboratory investigations and fieldwork, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Various systems will be described in terms of space, time, energy, and matter. Students will study a variety of topics that include laws of motion, conservation of energy, momentum, electricity, magnetism, thermodynamics, and behavior of waves.

**054 Organic Chemistry Honors**

Transcript Code: ORGCHEM  
Prerequisite: Chemistry, Physics (Honors recommended)  
Credit: 1 (CP, W)  
Organic chemistry is a laboratory course that includes the topics in the typical one-semester college course: functional group nomenclature; reactions within functional groups; bonding theories; reaction mechanisms; stereochemistry, biomolecules (including DNA), and metabolic pathways. A college-level text will be used.

**K55 Forensic Science**

Transcript Code: FRENSCI  
Prerequisite: Biology and Chemistry.  
Recommended prerequisite: Law Enforcement I  
Credit: 1  
Forensic Science uses a structured and scientific approach to the investigation of crimes such as assault, abuse and neglect, domestic violence, accidental death, and homicide. Students will learn terminology and investigative procedures related to crime scenes, questioning and interviewing, and scientific procedures used to solve criminal acts. Using scientific methods, students will collect and analyze evidence through case studies and simulated crime scenes. Students will conduct fingerprint, ballistics, and blood spatter analysis. Students will gain knowledge and understanding of forensic science by studying the history, legal aspects, and career opportunities in the field of forensics.

**060 Lab Management**

Transcript Code: LAB MGMT LC  
Credit: Local credit (CH, O, CP, W)  
Students help prepare, distribute, and clean up lab set-ups for science. Students will prepare solutions, perform standardization titrations, and help maintain stockroom organization. Good organizational skills are necessary. Does not count as a science credit.

**061 Internship**

Transcript Code: INTERSHP LC  
Credit: Local credit (CH)

Internship Program places students into a variety of scientific, technical, medical, and other professional setting in the CISD community for four weeks in June. Each student is evaluated by his/her mentor during the internship and is visited by a CISD internship sponsor. Students accepted into this program are offered the option of earning one-half unit of local credit. To earn one-half unit of local credit for internship, the student must complete a presentation to peers and to the campus internship coordinator.

**064 Research and Problems I**

Transcript Code: RES PR I LC

**Social Studies**

**100 World Geography**

Transcript Code: W GEO  
Credit: 1  
In World Geography studies, students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography.

**102 World Geography PreAP**

Transcript Code: W GEO  
Credit: 1  
The skills and strategies developed in this course are to prepare students for Advanced Placement courses.

**103 Human Geography AP**

Transcript Code: AP HUMGEOW  
(Pre-AP experience recommended)  
Credit: 1  
This class is equivalent to an introductory one semester college course. The purpose of this course is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use and alteration of Earth’s surface. Students are required to take the AP Human Geography exam.
152H Special Topics in Social Studies (Fall Semester)  
Transcript Code: SPTS54  
Credit: .5

103H Human Geography AP (Spring Semester)  
Transcript Code: APHUM GEOE  
Credit: .5  
Both courses required within same school year (Pre-AP experience recommended)  
These courses combine to be equivalent to an introductory one semester college course. The purpose of Special Topics in Social Studies (152H) is to introduce to students the evolution of human civilization through its impact with the Earth’s surface. Students will continue their systematic study of patterns and processes that have shaped human understanding, use and alteration of Earth’s surface in the spring semester in AP Human Geography (103H). Students are required to take the AP Human Geography Exam.

105 World History  
Transcript Code: W HIST  
Prerequisite: World Geography or AP Human Geography  
Credit: 1  
World History Studies is the only course offering students an overview of the entire history of humankind. The major emphasis is on the study of significant people, events and issues from earliest times to the present.

106 World History Honors  
Prerequisite: World Geography or AP Human Geography  
Credit: 1 (CH, CP, O, W)  
The skills and strategies developed in this course are to prepare students for Advanced Placement courses.

108 World History AP  
Transcript Code: APWHIST  
Prerequisite: World Geography or AP Human Geography  
(PREPAP Recommended)  
Credit: 1  
This course is equivalent to an introductory college course in World History. The purpose of this course is to develop greater understanding of the evolution of global processes and contacts, in interaction with different types of human societies. Students are required to take the AP World History exam.

110 US History  
Transcript Code: US HIST  
Prerequisite: World History  
Credit: 1  
Students study the history of the United States since Reconstruction to the present. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies of the Cold War, and post-Cold War eras, and reform movements including civil rights.

111 US History Honors  
Transcript Code: US HIST  
Prerequisite: World History  
Credit: 1 (O, CP, W)  
This United States course is a survey covering the period of post-Reconstruction (1877) to the present time. Students study political, economic, social, intellectual, religious and geographic influences on the development of American history. Emphasis is placed on the developing American government and historical world diplomacy. Honors students at this level are expected to have a strong work ethic, as well as strong writing and researching skills. The course covers a smaller time frame (1877 to present) than AP but does a much more in-depth, analytical coverage into the motivations behind various historical events. Thorough use and understanding of critical thinking skills like evaluation, summary, analysis are used to evaluate primary sources.

112 US History AP  
Transcript Code: APUSHIST  
Prerequisite: World History (Honors or AP recommended)  
Credit: 1  
This course is equivalent to an introductory college course in US History. This course is designed to provide students with the analytical skills and factual knowledge necessary to deal critically with the problems and materials in United States History. Students are required to take the AP US History exam.

1131U US History Dual Credit (1301 and 1302)  
Transcript Code: US HIST  
Prerequisite: World History and Lone Star College-Montgomery readiness requirements  
Credit: 1  
This class is the introductory college course that focuses on Pre-Columbian American Indians to the present.

115H US Government  
Transcript Code: GOVT  
Prerequisite: US History  
Credit: .5  
In Government, the focus is on the principles and beliefs upon which the United States was founded and on the structure, functions, and powers of government at the national, state, and local levels.

118UH Government Dual Credit (2305)  
Transcript Code: GOVT  
Prerequisite: US History (AP or Honors Recommended) and Lone Star College Montgomery readiness requirements.  
Credit: .5  
This class in an introductory college course (GOVT 2305 American Government I) that focuses on US Government and Politics and includes both general concepts and analysis of specific events, theories, and data.

116H US Government Honors  
Transcript Code: GOVT  
Prerequisite: US History  
Credit: .5 (O, CP, W)  
Students examine current issues and affairs, the political events of both past and present, and an in-depth coverage of the Constitution and law, as well as an evaluation of the checks and balances maintaining American democracy. This course is fast-paced and students must be self-motivated and enjoy being challenged academically. In addition to the general course requirements for U. S. Government, this course requires highly developed reading and writing skills. Students should have a serious commitment to developing competency in analytical skills, essay writing, and evaluative reading on a college level.

117H US Government AP  
Transcript Code: APUSGOVT  
Prerequisite: US History (AP, Honors, or dual credit recommended)  
Credit: .5  
This class is equivalent to a one semester introductory college course in US Government and Politics and includes both general concepts and analysis of specific events, theories, and data. Students are required to take the AP Government exam.

120H Economics  
Transcript Code: ECO-FE  
Prerequisite: US History  
Credit: .5  
The focus is on the basic principles
concerning production, consumption, and distribution of goods and services in the United States and a comparison with those in other countries around the world.

12IH Economics Honors
Transcript Code: ECO-FE
Prerequisite: US History
Credit: .5 (O, CP, W)
In addition to the general requirements of the economics course, students should be comfortable reading and interpreting a college-level textbook. This course delves into the intricate nature of fiscal policy in American government and in the today’s economy. Students should have a serious commitment to developing competency in analytical skills, essay writing, and evaluative reading on a college level. They must be self-motivated and enjoy being challenged academically in a fast-paced course.

122H Macroeconomics AP
Transcript Code: APMACECO
Prerequisite: US History (AP, Honors, or dual credit recommended)
Credit: .5
This course is equivalent to an introductory one semester college course in Economics. The purpose of this course is to give students an understanding the principles of economics that apply to an economic system as a whole. Emphasis is placed on the study of national income and price level determination, and also develops student’s familiarity with economic performance measures, the financial sector, stabilization policies, economic growth, and international economics. Students are required to take the AP Economics (Macro) exam.

129 European History AP
Transcript Code: APEHIST
Prerequisite: World Geography or concurrent (AP or Honors Recommended)
Credit: 1
This class is equivalent to an introductory college course. The study of European History since 1450 introduces students to cultural, economic, political, and social developments that played a fundamental role in shaping the world in which they live. Students are required to take the AP European History exam.

134H Psychology
Transcript Code: PSYC
Credit: .5
In Psychology students consider the development of the individual and the personality. The study of psychology is based on an historical framework and relies on effective collection and analysis of data. Students study topics such as theories of human development, personality, motivation, and learning.

135H Psychology AP
Transcript Code: APPSYC
Prerequisite: Pre-AP or AP experience recommended
Credit: .5
This class is equivalent to an introductory college course in Psychology. Students are encouraged to take the AP Psychology exam.

136H Sociology
Transcript Code: SOC
Credit: .5 (CC, CH, CP, O, W)
In Sociology students study dynamics and models of individual and group relationships. Students study topics such as the history and systems of sociology, cultural and social norms, social institutions, and mass communication.

154 Teen Leadership II
Transcript Code: TEENLDR
Prerequisite: Teen Leadership
Credit: .5 (CC, CH, CP)
This course continues the application of skills developed in Teen Leadership I. The class incorporates public speaking, communication, decision-making, fiscal planning, and long-range planning through a variety of activities.

155 Student Council LC
Credit: Local credit (O, CP, W)

Math

159 Algebra I Honors
Transcript Code: ALG 1
Credit: 1 (CH, O, W)
While covering the same basic objectives of the 162 Algebra I course, students in this course will be challenged with assignments requiring higher order thinking skills.

162 Algebra I
Transcript Code: ALG 1
Credit: 1
Students will build on the basic foundation of concepts presented in K-8 Mathematics, use symbols to study relationships among quantities, functions to represent and model problem situations, and analyze and interpret relationships. Students will work in many situations to set up equations, use a variety of methods to solve meaningful problems and will continually use problem solving, computation in problem-solving contexts, language and communication, connections within and outside of mathematics, and reasoning, as well as multiple representations, applications and modeling, and justification and proof.

164 Geometry
Transcript Code: GEOM
Prerequisite: Algebra I
Credit: 1
Students will build on the basic foundation of concepts presented in K-8 Mathematics and Algebra I, use geometric thinking to understand mathematical concepts and
relationships among them, study properties and relationships having to do with size, shape, location, direction, and orientation of one, two, and three-dimensional figures. Students will perceive the connection between geometry and the real and mathematical ideas, relationships, and properties to solve problems. Students will use a variety of representations (concrete, pictorial, algebraic, and coordinate), tools, and technology to solve meaningful problems by representing figures, transforming figures, analyzing relationships among figures, and proving concepts related to figures.

165 Geometry PreAP
Transcript Code: GEOM
Prerequisite: Algebra I
Credit: 1
While covering the same basic objectives of the 164 Geometry course, students in this course will be challenged with assignments requiring exploration, abstract and higher order thinking skills and be required to synthesize their knowledge of postulates and theorems to organize and construct detailed proofs of more complex mathematical theorems. Successful students are willing to devote time to memorizing basic theorems and postulates.

166 Mathematical Models
Transcript Code: MTHMOD
Prerequisite: Algebra I
Enrollment is determined by levels of success in prior math and science classes and prior STAAR scores. Must be taken before Algebra II.
Credit: 1
Students use algebraic, graphical, and geometric reasoning to recognize patterns and structure, to model information, and to solve problems from various disciplines and mathematical methods to model and solve real-life applied problems involving money, data, chance, patterns, music, design, and science. Students use mathematical models from algebra, geometry, probability, and statistics and connections among these to solve problems from a wide variety of advanced applications in both mathematical and nonmathematical situations.

167 Algebra II
Transcript Code: ALG 2
Prerequisite: Geometry
Credit: 1
Students will build on the foundation presented in Algebra I and Geometry. This includes continued study of linear and quadratic functions, graphing skills, and systems of equations and inequalities. New topics include, but are not limited to, matrices, functions (logarithmic, exponential, polynomial, rational, and piecewise) and conic sections. Students will use multiple representations, technology, and applications for better understanding of these concepts. This course is critical for students who wish to continue in higher mathematics.

168 Algebra II PreAP
Transcript Code: ALG 2
Prerequisite: Geometry (Pre-AP recommended)
Credit: 1
While covering the same basic objectives of the 167 Algebra II course, students in this course will be challenged with assignments requiring abstract and higher order thinking skills. This course provides a solid foundation for upper-level mathematics courses. Graphing calculators and other graphing utilities will be used extensively as students incorporate technology to discover generalizations of concepts and apply these concepts to realistic situations. Students may learn several methods for solving a problem and will be required to choose the most efficient method to complete the task.

170 Precalculus
Transcript Code: PRE CALC
Prerequisite: Algebra II
Credit: 1
Precalculus is a preparatory course for Calculus. The course expands on the Geometry and Algebra II curriculum. Topics covered include polynomial functions, exponential functions, logarithmic functions, circular functions, trigonometry, inequalities, complex numbers, sequences and series, parametric equations, conic sections, and vectors. There is an emphasis of higher level thinking with a strong emphasis on graphing applications. Graphing calculators and other graphing utilities are used when appropriate.

171 Precalculus PreAP
Transcript Code: PRECALCB
Prerequisite: Precalculus (PreAP recommended)
Credit: 1
Precalculus Pre-AP is a preparatory course for Advanced Placement Calculus. The course expands on the Algebra II PreAP curriculum and introduces trigonometry, polar equations, vectors, and sequences and series. There is an expectation of higher level mathematical thinking skills with an emphasis on applications.

174 Statistics AP
Transcript Code: APSTATS
Prerequisite: Algebra I (Pre-AP recommended)
Credit: 1
This course prepares students for the Advanced Placement Statistics Exam in May and requires students to collect, interpret, summarize, and compare various distributions of data. The topics for AP Statistics are divided into four major themes: exploratory analysis, planning a study, probability, and statistical inference. Graphing calculators with statistical software such as the TI-83/84 or TI-89 are used extensively. A lab fee may be assessed. Students are required to take the AP Statistics exam.

175 Calculus AB AP
Transcript Code: APCALCAB
Prerequisite: Precalculus (PreAP recommended)
Credit: 1
This course is designed for advanced math students. Limits, derivatives, and the definite integral are studied in detail. This course emphasizes the various types and applications of differentiation and integration. Students are required to take the AP Calculus AB exam.

176 Calculus BC AP
Transcript Code: APCALCBC
Prerequisite: Precalculus (PreAP recommended)
This course is for highly motivated math oriented students who desire the challenge of a college course. The curriculum includes all AB topics plus methods of integration, calculus of polar functions, parametric functions, and vectors, sequences and series including Taylor and McClaurin functions. Students are required to take the AP Calculus BC exam.

English

Summer reading may be required; please check with your campus.

200 English I
Transcript Code: ENG 1
Credit: 1
This introductory high school course focuses on activities that build on students’ prior knowledge and skills in order to strengthen their reading, writing, and oral language skills. Students will read extensively in different cultural, historical and contemporary contexts and demonstrate familiarity with works by authors from non-English speaking literary traditions with emphasis on classical literature. Students will engage in the composing process of multi-paragraph compositions including literary, expository, procedural and persuasive. Emphasis on the ability to demonstrate organizational structure, a controlling idea or thesis and writing for a variety of audiences will be practiced.

202 English I PreAP
Transcript Code: ENG 1
Credit: 1
This course offers an in-depth study of world literature from multiple genres. Students read and write extensively as they explore the significance of historical context, as well as literary forms, terms, and techniques. Clarity, logic, and the ability to formulate and defend a thesis statement are key components of writing instruction and practice. Students will complete compositions both outside and inside of class. These will include response to literary-style analysis, expository, literary, procedural and persuasive. The conventions of language, syntax, the ability to write to a variety of audiences, in addition to the mechanics of writing are continuously addressed to facilitate the writing process.

206 English II
Transcript Code: ENG 2
Prerequisite: English I
Credit: 1
English II further expands and refines the skills learned in English I. The focus on writing emphasizes persuasive forms such as logical arguments and expressions of opinion. In addition, writing for a variety of audiences, rhetorical writing activities in the study of literature, expository and procedural will be addressed. English II students read extensively in multiple genres from world literature originally written in English or translated to English.

208 English II PreAP
Transcript Code: ENG 2
Prerequisite: English I
Credit: 1
This course focuses on an in-depth analysis of world literature from multiple genres. Students read and write extensively as they interpret influences of the historical context on a literary work and learn literary forms and terms associated with the readings. All modes of writing are practiced with

CC=Caney Creek, CH=Conroe, O=Oak Ridge, CP=College Park, W=The Woodlands
an emphasis on persuasive and analytic forms. With each type of writing, students are expected to plan, draft, revise, and edit their work. The oral and written conventions of writing are continuously reviewed and practiced in order to facilitate the writing process.

212 English III
Transcript Code: ENG 3
Prerequisite: English II
Credit: 1
English III further expands and refines the concepts and skills learned in both English II and English I. In addition, students will write longer compositions incorporating outside documentation, making rhetorical choices on audience, purpose and form, and writing a variety of persuasive, informative and analytical pieces. Students will read extensively from American literature with emphasis on the knowledge, history and major features of this discourse. The course will further provide extensive practice through both reading and writing in the development of critical thinking.

213 English III Honors
Transcript Code: ENG 3
Prerequisite: English II
Credit: 1 (O, CP, W)
This in-depth study of American literature will provide students with an opportunity to recognize and evaluate major periods, authors, themes, works, and forms of American literature. Analytical reading and writing, research, and English grammar and usage will be addressed. This honors course exceeds the traditional requirements through content, process, and product.

214 English Language III AP
Transcript Code: APENGLAN
Prerequisite: English II (Pre-AP recommended)
Credit: 1
This course prepares students for the AP Language and Composition exam. It trains students to become skilled readers and writers in diverse genres and modes of composition. This focus ultimately enables students to independently read and understand complex texts and write rich, effective prose in response to those texts. As the course progresses, students become aware of their own composition process through self-assessment and evaluations by both peers and the instructor.
These skills will allow the student to read critically and write effectively in different modes in the college classroom and beyond. Students are required to take the AP English Language exam.

2161U English III Dual Credit (1301 and 1302)
Transcript Code: ENG 3
Prerequisite: English II and Lone Star College-Montgomery readiness requirements
Credit: 1 (CC, CH, O, W)
A multi-paragraph composition course, including language study and the mechanics of writing, with examples from selected readings. The course combines American literature with Lone Star College-Montgomery courses 1301 and 1302 language composition skills and outcomes per the college. There will be special emphasis on writing expository, analytical, and argumentative essays with a review of grammar, vocabulary, varied composition discourses. The course will help students become skilled readers of prose, written in a variety of disciplines and rhetorical context, and become skilled writers who compose for a variety of purposes, aware of the interactions of the writers’ purposes, audience expectations, and subjects. In addition, the student will be informed on the use of research materials and the ability to synthesize varied sources (to evaluate, cite, and utilize source material). The student must earn a 70 overall semester average to earn each 3 hours of college credit.

2171U English IV Dual Credit (2332 and 2333)
Transcript Code: ENG 4
Prerequisite: English III and Lone Star College-Montgomery readiness requirements
Credit: 1 (CC, CH, O, W)
This course teaches students to trace, interpret, and evaluate the cultural and literary development of World literature (English 2332 and 2333), both in form and content, from the Classical Age to the present time. Students will read, interpret and evaluate literary works through understanding of the theme, situation, tone, structure, and style of the literature and write logical, well-organized, well-supported critical responses to literary works, using appropriate documentation, as required. They will understand the distinguishing characteristics of various genres of literature and recognize the aesthetic, moral, and intellectual values of literature as well as recognizing major themes in literature. The student must earn a 70 overall semester average to earn each 3 hours of college credit.

218 English IV
Transcript Code: ENG 4
Prerequisite: English III
Credit: 1
In English IV the course further expands the concepts and skills learned in earlier English classes. The focus of study will be on commonly recognized patterns of organization, precision in meaning through language and rhetorical choices, analysis of ideas, and use of sophisticated and precise word choices. Students will read and recognize major authors, periods, forms and works in British literature. Focus will be on recurring themes, devices of propaganda, analysis of the presentation of ideas including forms of logical reasoning and techniques of persuasive language. Students will understand the application of abstract concepts and read and think critically.

2111 English IV College Prep: Integrated Reading and Writing II (TSI)
Transcript Code: CPELA
Prerequisite: English III, TSI score, and committee approval
Credit: 1
This course does not satisfy requirements for the Recommended graduation Plan
Students will learn to investigate academic texts, construct supported interpretations and arguments for an authentic audience, and acquire academic habits of thought. Reading instruction will focus on developing critical reading skills for comprehension, interpretation, and analysis. In writing, students will develop skills through composing with specific purpose, situation, genre, and audience in mind. Students will write a variety of effective formal and informal texts. To learn to integrate reading and writing, students will use an inquiry approach to analyze, synthesize, and make value judgments regarding text and writing. This course is designed to prepare students for college-level reading and writing intensive courses.

219 English IV Honors
Transcript Code: ENG 4
Prerequisite: English III
Credit: 1 (O, CP, W)
This in-depth study of British literature presents a chronological survey from Beowulf to modern times. Emphasis is placed on improving composition skills, using various forms of discourse and patterns of organization, and reviewing
gramar and language usage. Students will be able to read with a critical focus by penetrating deeper into both the content of literature and the analysis of that content. Critical findings will be organized around a central idea in composition. Extensive vocabulary enrichment will enhance mastery of the English language. Students are encouraged to purchase the MLA handbook as it will be used extensively.

220 English Literature IV AP
Transcript Code: APENGLIT
Prerequisite: English III (Pre-AP recommended)
Credit: 1
This course emphasizes both effective and critical reading in preparation for the Advanced Placement Literature exam. The stylistic excellence that the students come to appreciate through attentive analysis of a variety of prose texts can serve them in their own writing. Concepts of grammar and language usage will be reviewed and extended. A study of literary genres trains students to analyze the fictional, poetic, and dramatic elements of literary texts and to read to appreciate the writer’s craft. The course emphasizes effective critical reading as well as college-level writing skills in preparation for the Advanced Placement literature exam and for success in college writing. Students are required to take the AP English Literature exam.

2211U English IV Dual Credit
(1301 and 1302)
Transcript Code: ENG 4
Prerequisite: English III and Lone Star College-Montgomery readiness requirements
Credit: 1 (CH, CP, W)
This course combines British and world literature with Lone Star College 1301 and 1302 Composition and Rhetoric I and II. The course emphasizes both effective and critical reading and writing. Through intensive analysis of a variety of literary genres and styles, the students acquire greater appreciation of excellent writing, while also improving their own writing ability. The student must meet all Montgomery College requirements prior to the course beginning.

Transcript Code: ENG1 SOL
225 English II SOL
Transcript Code: ENG2 SOL
Credit: 1
This course is available to those students who have been identified as Limited English Proficient. The curriculum emphasizes the development of listening, speaking, reading, writing and culture. Only two credits of ESL may count as English credits for graduation.

226 Contemporary Media
Transcript Code: CONTMED
Prerequisite: English II or concurrent enrollment
Credit: 1 (W)
Students explore the role of media as it influences tastes, behavior, purchasing, and voting decisions. The historical development of media and its related technologies and personalities will be examined. Students will plan, produce, present, and evaluate media messages. Students will explore relationships among various forms of mass communication and evaluate the roles of television, film, radio, social media, internet, periodicals, music, etc. as historical and cultural timelines.

228 Creative Writing
Transcript Code: CREAT WR
Prerequisite: English II
Credit: .5 – 1
The study of creative and imaginative writing allows high school students to earn one-half to one credit while developing versatile skills in essay, poetic, dramatic, and short story forms of writing. All students are expected to demonstrate the recursive nature of the writing process, applying the conventions of usage and mechanics of written English, and analyzing and discussing both published and unpublished writers’ pieces and methods, in order to set personal goals for writing.

229 Humanities
Transcript Code: HUMANIT
Prerequisite: English II
Credit: .5-1 (CP, W)
Humanities is an interdisciplinary course that includes the study of major historical and cultural movements and their relationship to literature, fine arts, and the social sciences. This is a rigorous course of study in which students show an in-depth understanding of creative achievements in the arts and literature and how these various art forms reflect history. Participation and assessment include class discussions, oral presentations, creative projects, journals, readings, and written responses.

230 Bible Literacy and Western Civilization
Transcript Code: HSNTENG
Credit: .5 - 1
This course includes the content and history of the Hebrew Scriptures and New Testament. The curriculum will also familiarize students with the influence of the Bible on law, history, literature, and the culture of western civilization. This course maintains religious neutrality and accommodates the diverse religious views, traditions, and perspectives of students. This course does not endorse, favor, or promote, or disfavor or show hostility toward, any particular religion or nonreligious faith or religious perspective.

232 Practical Writing
Transcript Code: PRACT WR
Credit: .5 - 1
This study of writing allows high school students to earn one-half to one credit while developing skills necessary for writing to a specific purpose, such as business writing or writing to a prompt. This course emphasizes skill in the use of the conventions of grammar and usage of written English, the effective use of vocabulary, and a basic understanding of the recursive nature of the writing process.

236H College Readiness and Study Skills

Transcript Code: READ1
238 Reading II
Transcript Code: READ2
239 Reading III
Transcript Code: READ3
Credit: 1
Reading I, II, and III offers students instruction in word recognition and comprehension strategies and vocabulary. Students are given opportunities to locate information in varied sources, to read critically, to evaluate sources, and to draw supportable conclusions. Students learn how various texts are organized and how authors choose language for effect.

275 Research and Technical Writing
This rigorous composition course provides students with an in-depth study of writing in the academic disciplines through their own practice and by providing tutoring at the high school Writing Center. All students are expected to demonstrate an understanding of the writing process, and to effectively apply the conventions of usage and the mechanics of written English. The student’s evaluation of their own writing as well as the writing of others ensures that students completing this course are able to analyze and discuss published and unpublished pieces of writing, develop, and apply criteria for effective writing, and set their own goals as writers.

This course emphasizes oral and written communication through continued study of conversation, writing, reading, grammar and vocabulary study. German is used in the classroom as much as possible.

345 German IV AP LANGUAGE
Transcript Code:  APGR LAN
Prerequisite:  German III PreAP  (323)
Credit:  1
This is a continuation of German literature and language. Students prepare to take the Advanced Placement German Language Exam combining all of their skills in areas of listening, reading, writing and speaking in a variety of applications. Students will complete independent reading assignments, write essays and maintain sustained speech in German. This class is conducted in German. Students are required to take the AP German Language exam.

370 Japanese I
Transcript Code:  JAPN 1
Credit:  1 (CP, W)
This course offers a basic understanding of the Japanese language and culture. Introduction to basic vocabulary and grammar will enable students to function in simple everyday topics; such as self, school/family life, weather, time, numbers, and locations. Oral practice is stressed. Students will practice reading and writing HIRAGANA AND KATAKANA and will learn 20-30 KANJI. Students will write basic sentences using them. They will begin reading basic materials.

371 Japanese II
Transcript Code:  JAPN 2
Prerequisite:  Japanese I
Credit:  1 (CP, W)
Continued study in this course will enable students to function in Japanese situations which are important in everyday life. Students will continue to practice reading and writing HIRAGANA and KATAKANA and will learn about 100 KANJI in this course. Oral activities will be stressed and cultural activities will be the important part of the class. They will continue to read basic materials.

372 Japanese III PreAP
Transcript Code:  JAPN 3
Prerequisite:  Japanese II
Credit:  1 (CP, W)
Students will learn colloquial expressions and plain verb endings related to everyday topics so that they will be able to communicate smoothly in more informal situations. They will learn about 200 basic KANJI. They will engage in oral and listening comprehension exercises. They will also continue to practice reading and writing. Cultural activities will continue.

385 Chinese I
Transcript Code:  CHIN 1
Credit:  1 (CH, O, CP, W)
This course is designed to help students develop basic Chinese language skills in speaking, reading and writing of modern Chinese by combining traditional textbook materials with hands on explorations of Chinese culture, customs and habits, history, business practice and current events. The class consists of reading, listening, discussion, network exploration, and conversational practice. The course is conducted in Mandarin. The course's objective is to teach about 500 Chinese words and Chinese expressions by the end of the program. Classes focus on teaching Chinese phonetics and tones, Chinese vocabulary, sentence structures and grammar using everyday topics. Phonetics, tone exercises and drills ensure that students learn the correct pronunciation and intonation from the beginning. Students will be introduced to the radical system (Chinese character composition), stroke orders and basic characters. Practical situational texts are used to provide a greater awareness of Chinese culture and society. At the end of this course, students should be able to engage in simple daily conversation and complete the beginner level ready for Elementary level Chinese II.

386 Chinese II
Transcript Code:  CHIN 2
Prerequisite:  Chinese I
Credit:  1 (CH, O, CP, W)
This course is designed to help students further develop basic Chinese language skills in speaking, reading, and writing of modern Chinese by combining traditional textbook material with hands
on explorations of Chinese culture, customs and habits, history, business practice and current events. Students will learn an additional 500 Chinese words and expressions by the end of this course. Practical situational texts are used to provide a greater awareness of Chinese culture and society. Phonetics, tone exercises will be reinforced for correction pronunciation and intonation. At the end of this course, students should be able to converse on daily topics and express themselves using elementary sentence structures and complete the Elementary Chinese II level ready for the Intermediate level Chinese III.

387 Chinese III PreAP
Transcript Code: CHIN 3
Prerequisite: Chinese II
Credit: 1 (CH, O, CP, W)
This is a continuation of the study of Mandarin Chinese. Students will continue to learn additional vocabulary and sentences. Students attending these classes should have finished Chinese II or know more than 1000 Chinese words or expressions. The course’s objective is to expand Chinese words and Chinese expressions up to 1800 by the end of the program. Classes focus on improving the conversational and reading skills in a more complicated sentence structures. Simple classic Chinese literature and Chinese business practice will be introduced. We will also discuss current events in Chinese. Our objective is to expand students’ awareness and vocabularies in fine art and business fields. Practical situational texts are used to provide a greater awareness of Chinese culture and society. Correct pronunciation and intonation will be reinforced. At the end of the course, students should be able to express themselves in different contexts using intermediate sentence structures, and complete the Intermediate level Chinese III progressing to the advanced level.

This course continues the study of Mandarin Chinese and follows the College Board curriculum to prepare students for the Advanced Placement exam. Students are required to take the AP Chinese Language exam.

297 Special Topics in Language and Culture
Transcript Code: SPECTLC

Prerequisite: One successful year of any foreign language and committee approval.
Credit: 1
This course provides students with the study of world languages in the 21st century and an understanding of the two basic aspects of human existence: The nature of communication and the complexity of culture. This course will not count as a level II LOTE course and does not meet college requirement for a second year of LOTE.

Fine Arts

Students who have artistic talent and want to include AP Art in their 4-year plan have an opportunity to accelerate to Art II and retroactively earn their Art I credit. If you are interested, see your counselor for information.

Fees may be applicable. Check with your school for more information.

400 Art I
Transcript Code: ART 1
Credit: 1
This is a one-year foundation course. Application of the fundamentals of design will be used to develop basic skills and techniques as well as an understanding and appreciation of historical and contemporary art and artists. Studio activities include drawing, painting, photography, printmaking, ceramics and sculpture.

401 Art II Ceramics
Transcript Code: ART2CRMC
Prerequisite: Art I or Approved Art Accelerated Portfolio
Credit: 1 (CH, O, CP, W)
This is a course in clay which encompasses both sculpture and pottery. Students will study the properties and processes of clay, including hand building, wheel throwing, kiln firing and glazing. Understanding and application of the Elements and Principles of Art and Design will guide the criteria. Integration of appreciation, aesthetics and history will add enrichment to the hands-on studio practice.

402 Art II Drawing
Transcript Code: ART2DRAW
Prerequisite: Art I or Approved Art Accelerated Portfolio
Credit: 1
This is a one year course for students who wish to further develop drawing skills introduced in Art I. Students rely on direct observation of their environment, as well as imagination, memory, and their own life experiences to create expressive drawings. A variety of media, including pencil, colored pencil, charcoal, conte, pastel, pen and ink, and mixed media is employed to communicate personal themes. Important concepts include light and shadow, composition, perspective, and abstraction.

404 Art II Digital Art and Media I
Transcript Code: ART2DGMD
Prerequisite: Art I or Approved Art Accelerated Portfolio
Credit: 1 (CP, W)
Students will learn to create artwork on computers using the applications of Adobe Creative Suite. Digital Art will be produced in Photoshop or Illustrator. Digital cameras, graphics tablets, and scanners will be used to combine color graphics, digital photos, and art work created in traditional media. This course will explore animation using flash. Students will need to furnish a portable external drive for storing digital work (i.e., flash drive, thumb drive, etc.).

406 Art II Painting
Transcript Code: ART2PATG
Prerequisite: Art, Level I or Approved Art Accelerated Portfolio
Credit: 1
This course includes a more in-depth study of Art I painting and drawing with additional media exploration and further development of problem-solving skills. Fees cover the price of sketchbooks, a canvas or panel for acrylic painting, paper and numerous drawing and painting mediums. Integration of art history, appreciation, aesthetics, and criticism will add enrichment to the hands-on studio practice.

407 Art II Photography
Transcript Code: ART2PHOTO
Prerequisite: Art I or Approved Art Accelerated Portfolio
Credit: 1 (CP, W)
This course offers an in-depth study of the camera and photography techniques. Assignments are given to practice using the camera, requiring at least 25-30 shots per week as homework. Students will keep a portfolio of work. The focus will be solely on fine arts images. School using the traditional darkroom will teach film development and printing. Schools
using a digital darkroom will teach Photoshop. Students in digital darkroom classes will need to furnish a portable external drive (flash drive, thumb drive, etc.) for storing digital work.

409 Art II Sculpture
Transcript Code: ART2SCLP
Prerequisite: Art I or Approved Art Accelerated Portfolio
Credit: 1
This course will encompass the development of creative problem solving and practical skills in three-dimensional design. Clay and various other materials will be used. Many power and hand tools will be safely used while working with woods. Art history, appreciation, aesthetics and criticism will be integrated into studio practice.

415 Art III Ceramics
Transcript Code: ART3CRMC
Prerequisite: Art II in corresponding discipline.
Credit: 1 (CH, O, CP, W)
Students will build on the ceramics skills and study learned in Ceramics II with an eye toward specialization. Relevance to college and career will be considered. Further development of skills, knowledge and appreciation is done through experimentation, research, and practice.

416 Art III Drawing
Transcript Code: ART3DRAW
Prerequisite: Art II in corresponding discipline.
Credit: 1
Students will build on the drawings skills and study learned in Drawing with an eye toward specialization. Relevance to college and career will be considered. Further development of skills, knowledge and appreciation is done through experimentation, research, and practice.

418 Art III Digital Art and Media II
Transcript Code: ART3DGMD
Prerequisite: Art II in corresponding discipline.
Credit: 1 (CP, W)
Students will continue use of the software programs and equipment used in Digital Art and Media I. Additionally, students will create their own font in “Fontographer.” Students will explore 3-D rendering and animation. “iMovie” will be used for digital video and sound editing. The Internet will be accessed for information on artists and digital art. Digital art research will be presented to the class as a PowerPoint presentation. Students will create their own web pages to display their digital artwork. The lab fee will cover the cost of writable CD’s, toner cartridges, paper, mat board, and personal print portfolios.

419 Art III Painting
Transcript Code: ART3PATG
Prerequisite: Art II in corresponding discipline.
Credit: 1
This course will explore multiple styles, techniques and media in both painting and drawing from representation to abstraction. Media that will be used includes oils, acrylics, watercolors, pastels and inks. Art history, appreciation, aesthetics and criticism will be integrated with studio activities. There will be emphasis on individual style and development of personal portfolios.

420 Art III Photography
Transcript Code: ART3PHTO
Prerequisite: Art II in corresponding discipline.
Credit: 1 (CP, W)
Art III Photography is a continuation of Photography II with more advanced camera techniques and a broader scope of creative exploration. Students will need to furnish a portable external drive for storing digital work (i.e., flash drive, thumb drive, etc.).

422 Art III Sculpture
Transcript Code: ART3SCLP
Prerequisite: Art II in corresponding discipline.
Credit: 1
This course will develop problem-solving skills while working three-dimensionally with various materials, which may include clay, wood, stone, and plaster as well as mixed media. Emphasis will be on exploring individual ideas. Art history, appreciation, aesthetics and criticism will be integrated with studio practice.

438 Art IV Ceramics
Transcript Code: ART4CRMC
Prerequisite: Art III in corresponding discipline.
Credit: 1
Students will resume Ceramics study begun in Art III with an eye toward specialization.

425 Art IV Drawing
Transcript Code: ART4DRAW
Prerequisite: Art III in corresponding discipline.
Credit: 1
This is a continuation of skills and concepts from Art III with extensive individual exploration and college and career research.

427 Art IV Digital Art and Media III
Transcript Code: ART4GDMD
Prerequisite: Art III in corresponding discipline.
Credit: 1 (CP, W)
This is a continuation of skills and concepts from Digital Art and Media II with extensive individual exploration and independent study. Students will continue use of the software and equipment used in Digital Art and Media II. Students will need furnish a portable external drive for storing digital work (i.e., flash drive, thumb drive, etc.)

432 Art IV Photography
Transcript Code: ART4PHTO
Prerequisite: Art III in corresponding discipline.
Credit: 1 (CP, W)
This course offers students an opportunity to choose a concentration in Photography with more in-depth study of advanced photography and individual portfolio development. Students will need to furnish a portable external drive for storing digital work (i.e., flash drive, thumb drive, etc.).

435 Art Drawing AP
Transcript Code: APSTARTD
Prerequisite: Drawing I or Painting I or portfolio review
Credit: 1
The Drawing Portfolio is designed to address a broad interpretation of drawing issues. For example, painting,
printmaking, studies for sculptures, some forms of design, and abstract and observational works would qualify as addressing drawing issues. College credit for Advanced Placement in studio art can be earned with their portfolio of work produced in this course and submitted for evaluation by the College Board. (Credit earned is dependent upon score received and policies of the university.) Studio practice emphasizes independent exploration and research, experimentation of materials and themes, concept development, some instructor-guided exercises, consideration of college and career choices, presentation and exhibition. Current trends will be examined through media studies and presentations by Admission counselors from recognized art schools. Fees include slide portfolio for exam submission material, and tools for multimedia exploration and presentation matting. Students are required to submit a portfolio for the AP Art Drawing exam.

396 Two-Dimensional Design Portfolio AP
Transcript Code: AP2DDP
Prerequisite: Art Level II course or portfolio review
Credit: 1-2
The 2-D Design portfolio addresses a broad interpretation of Design. Any 2-D media including, but not limited to graphic design, typography, digital imaging, photography, collage, fabric design, weaving, illustration, painting, printmaking, etc., may be submitted. College credit for Advanced Placement in studio art can be earned with portfolio of work produced in these courses and submitted and evaluated to the College Board at examination time. (Credit earned is dependent upon score received and policies of the university). Studio practice emphasizes independent exploration and research, experimentation of materials and themes, concept development, some instructor-guided exercises, consideration of college and career choices, presentation and exhibition. Current trends will be examined through media studies and presentations by Admission counselors from recognized art schools. Students are required to submit a portfolio for the AP Three-Dimensional Art exam.

437 Art History AP
Transcript Code: APHISART
Prerequisite or concurrent: World History (AP recommended)
Credit: 1
This is a course of study aimed at students who might be interested in taking the Advanced Placement Art History Exam for college credit. It covers the same basic material as Art History, but in greater depth. This course is especially helpful in developing analytical skills and gaining a deeper understanding of world cultures, history and religion. It is also a great complement to AP European History or AP English. Students are required to take the AP Art History exam.

866 Digital Art and Animation
Transcript Code: TADGAA
Credit: 1
Students will explore the world of digital imagery, putting their creativity and imaginations to work and translating their ideas into graphic designs and animations. Using industry-leading software tools they learn to take their ideas from visualization to design, using their computer skills to produce a wide variety of finished products. The course includes introduction to Adobe’s Illustrator and Photoshop and Macromedia’s.

398 Three-Dimensional Design Portfolio AP
Transcript Code: AP3DDP
Prerequisite: Ceramics I or Sculpture I
Credit: 1-2
The 3-D design portfolio addresses a broad interpretation of design. Any 3-D media including but not limited to Ceramics may be submitted. College credit for Advanced Placement in studio art can be earned with portfolio of work produced in this course and submitted and evaluated to the College Board at examination time. (Credit earned is dependent upon score received and policies of the university). Studio practice emphasizes independent exploration and research, experimentation of materials and themes, concept development, some instructor-guided exercises, consideration of college and career choices, presentation and exhibition. Current trends will be examined through media studies and presentations by Admission counselors from recognized art schools. Students are required to submit a portfolio for the AP Three-Dimensional Art exam.

440 Theatre I
Transcript Code: TH1
Credit: 1
Theatre Arts I is a participatory survey course designed for students who are interested in learning about all areas of theatre. Students will learn the various techniques of acting including creative dramatics, character interpretation, and staging; explore theatre production concepts and skills including makeup, costuming, and set design; and participate in criticism by attending two major productions outside of class. Students may choose to participate in co-curricular drama activities by the department.

441 Theatre II
Transcript Code: TH2
Prerequisite: Theatre I
Credit: 1
This course is designed to allow the student who successfully completed Theatre Arts I to continue to study acting theory and techniques as well as performance opportunities. The class introduces the students to directing and theatre history. Participation in co-curricular activities outside of the class is required.

442 Theatre III
Transcript Code: TH3
Prerequisite: Theatre II
Credit: 1
This course is a continuation of basic skills and activities begun in Theatre Arts I and II. Activities will include opportunities to further develop personal acting techniques and performing skills. Students will perform scenes and plays from various theatrical periods and styles and explore career opportunities in theatre. Other projects include playwrites. Participation in co-curricular activities outside of the class is required.

443 Theatre IV
Transcript Code: TH4
Prerequisite: Theatre III
Credit: 1
Theatre Arts IV is designed as a workshop/seminar to challenge the advanced theatre student with in-depth study of advanced acting techniques including research in theatre topics, development of directing, and exploration of career opportunities in theatre. Production participation (including after school rehearsals, meetings, and performances) is required by all Theatre Arts IV students.
445 Theatre Production I  
Transcript Code: TH1PROD  
Prerequisite: Theatre II  
Credit: 1 (CC, CH, O, W)  
These courses are designed for the advanced theatre student who is involved in all of the major productions in the department. This will be a workshop atmosphere that will include production meetings, work on the shows, and plans for other co-curricular theatre activities. Leadership training, management, and individual development, research, and projects are stressed. Production participation (including after school production work) is required of all Theatre Production students.

550 Music Theory I  
Transcript Code: MUSSMT1  
Credit: .5 – 1

This is an academically rigorous course designed to enrich and prepare students who desire to study music at an advanced level. Fundamentals of music will be reinforced and students will develop basic music literacy. Elements in this course will include notation, melody, harmony, rhythm, and musical terminology. Students desiring to take this course must demonstrate readiness with aural skills and written knowledge. This readiness can be validated through successful completion of at least one year in a high school level music ensemble or through independent study with a minimum of 85% mastery of an examination for readiness.

552 Music Theory  
Transcript Code: APMUSTHY  
Prerequisite: Music Theory I  
Credit: 1

AP Music Theory is designed for students who wish to pursue music as a career or desire to further enrich their music education. The main emphasis is placed on elements of music from the Common Practice period (1600-1750), however music of other stylistic periods will also be studied (Medieval, Renaissance, Romantic, 20th Century, and modern music). The focus of this course is to prepare students to take the AP Music Theory exam and/or similar coursework at the collegiate level. Students desiring to take this course must demonstrate readiness with aural skills and written knowledge. This readiness can be validated by successful completion of the Music Theory I course or through a minimum of 85% mastery of an examination for Music Theory AP readiness.

555 Dance I  
Transcript Code: DANCE 1  
Credit: 1

This course allows dance students the opportunity to acquire advanced skills in the fundamental dance genres covered in Dance I and II. Students will develop an awareness of space, time, and energy as design factors in dance performance and choreography; respond to tempo, meter, accent, and phrasing; manipulate qualities of movement in designing dance studies; and explore historical influences of dance. Students will be required to participate in performances in and out of the regular school day. Fees cover the cost of necessary dancewear.

556 Dance II  
Transcript Code: DANCE 2  
Prerequisite: Dance I  
Credit: 1

This course provides an in-depth study of dance terminology, technique/style, music appreciation, rhythmic analysis and factors that influence movement. Studies will also increase kinesthetic awareness, develop movement memory and allow students to conceptualize movement ideas/motifs through improvisation and composition. Students will be required to participate in performances in and out of the regular school day. Fees cover the cost of necessary dancewear.

557 Dance III  
Transcript Code: DANCE 3  
Prerequisite: Dance II  
Credit: 1

This is a foundation course, balancing the areas of terminology, technique and movement. Students will learn and perform dance through a broad presentation of skills, technical terminology, historical background, cultural and artistic diversity. Students are given the opportunity to experience movement physically and visually; experimenting/exploring within the creative process of group/individual choreography through the dance genres of ballet, modern, folk/social, jazz and ethnic. Fees cover the cost of necessary dancewear.

558 Dance IV  
Transcript Code: DANCE 4  
Prerequisite: Dance III  
Credit: 1

This course stresses more advanced dance techniques with each student being encouraged to choreograph a complete/complex movement statement, present movement studies
at the performance level, evaluate movement ideas, and express concrete or abstract ideas in movement. Students will explore and analyze historical influences of dance, analyze dance concerts and respond with a knowledgeable understanding of dance as an art form. Students will be required to participate in performances in and out of the regular school day. Fees cover the cost of necessary dancewear.

Agriculture, Food & Natural Resources

K100 Principles of Agriculture, Food & Natural Resources
Credit: .5 - 1
Develop and expand the knowledge and techniques skills pertaining to Veterinary Technical Assistant area. This course is designed as a laboratory-oriented course that allows students hands-on experience within the area of diagnostic testing, client records, employer/employee relationship, and techniques used in surgical practices. Students are required to complete an internship with licensed Veterinarian in order to take the state certification test for Veterinary Assistant Level I.

K125 Livestock Production
Prerequisite: Principles of Agriculture, Food & Natural Resources
Credit: .5
Develop and expand the knowledge and techniques skills pertaining to Veterinary Technical Assistant area. This course is designed as a laboratory-oriented course that allows students hands-on experience within the area of diagnostic testing, client records, employer/employee relationship, and techniques used in surgical practices. Students are required to complete an internship with licensed Veterinarian in order to take the state certification test for Veterinary Assistant Level I.

K102H Livestock Production
Prerequisite: Principles of Agriculture, Food & Natural Resources (recommended)
Credit: .5
Introduction to livestock production and management, including animal care, nutrition, reproduction, and health. Students will also examine the importance of wildlife and outdoor recreation with emphasis on using wildlife and natural resources. Students will also examine the management of game and non-game wildlife species, fish, and aquaculture and their ecological needs. Students are able to obtain their Hunter Safety certification during this course if they pass their exam.

K106 Advanced Animal Science
Credit: 1 (CC, CH, O, W)
Prerequisite: Vet Med AP
Develop and investigate the scientific and technological dimensions of scientific animal agriculture, genetics, and reproduction, anatomy and physiology of various livestock species, nutritional requirements, and disease and parasites of livestock. This class is recommended for those students with an interest in Veterinary Science.

K107 Professional Standards in Agribusiness
Transcript Code: PROSAFNR
Credit: 1
Prerequisite: Principles of Agriculture (Recommended)
This course primarily focuses on leadership, communication, employer-employee relations, and problem solving as they relate to agribusiness.

K112 Food Technology and Safety
Credit: 1 (CC)
This course examines the food technology industry as it relates to food production, handling, and safety.

K113 Food Processing
Prerequisite: Food Technology and Safety
Credit: 1 (CC)
This course focuses on the food processing industry with special emphasis on the handling, processing, and marketing of food products.

K114H Wildlife, Fisheries & Ecology Management
Prerequisite: Principles of Agriculture, Food & Natural Resources
Credit: 1
This course focuses on the food processing industry with special emphasis on the handling, processing, and marketing of food products.

Fees may be applicable. Check with your school for more information.

Career and Technical Education

Food Processing
Prerequisite: Principles of Agriculture, Food & Natural Resources
Credit: 1
This course focuses on the food processing industry with special emphasis on the handling, processing, and marketing of food products.

K117 Principles & Elements of Floral Design
Prerequisite: Principles of Agriculture, Food & Natural Resources (recommended)
Credit: 1
Exposes students to the basic techniques of floral design. This class is project-based with many large and small projects used to evaluate the progress of the student. There are lots of hands-on activities to involve the students in techniques required in the floral industry. May meet Fine Art credit requirement.

K118H Landscape Design & Turf Grass Management
Prerequisite: Principles of Agriculture, Food & Natural Resources (recommended)
Credit: 1 (CC, CH, O, W)
Focuses on plant identification, selection, care, and maintenance as well as planting, planning and developing a basic landscape. This course focuses on both commercial and residential landscaping.

K119 Horticulture Science
Prerequisite: Principles of Agriculture, Food & Natural Resources (recommended)
Credit: 1 (CC, CH, O)
This course examines the importance of wildlife and outdoor recreation with emphasis on using wildlife and natural resources. Students will also examine the management of game and non-game wildlife species, fish, and aquaculture and their ecological needs. Students are able to obtain their Hunter Safety certification during this course if they pass their exam.

K121 Agricultural Mechanics & Metal Technologies
Prerequisite: Principles of Agriculture, Food & Natural Resources (recommended)
Credit: 1
Develops proficiency in many welding skills. Students will be expected to use the cutting torch and MIG Welders. Welding in several positions, which include flat, horizontal, and vertical. The course develops an understanding of tool operation, electrical wiring, plumbing, carpentry, and metal working techniques.

K122 Agricultural Facilities Design & Fabrication
Prerequisite: Agriculture Mechanics and Metals
Credit: 2 (CH, O, W)
Introduces and develops principles of electricity. Geographic Information Systems (GIS), working with concrete, water-management systems, masonry, drywall, and roofing materials.

K124 Practicum in Agriculture, Food & Natural Resources
Prerequisite: Advanced courses in Agriculture, Food & Natural Resources
Credit: 2-3 (CH, O, W)
Provides students the opportunity and support for a paid or non-paid internship in the animal care/agriculture industry. It provides juniors and seniors with a professional internship experience. Students recognize the value of effective work ethics and attitudes and develop communications and problem-solving skills. This course is for those individuals who are enrolled in or have completed Veterinary Medical Application. Students in this course can work on level 1 or level 2 skills and certifications.

Architecture & Construction

K150 Principles of Architecture & Construction
Credit: 5 - 1
Introduces students to the basic knowledge and skills related to the career opportunities and training in the architecture and construction fields.

K151 Interior Design
Credit: 5 – 1
Prerequisite: Principles of Architecture & Construction (Recommended)
This technical course addresses the needs of individuals by enhancing the environments in which they live and work. Students will use knowledge and skills related to interior and exterior environments, construction, and furnishings to make wise consumer decisions, increase productivity, and prepare for careers in the interior design field.

K152 Advanced Interior Design
Prerequisite: Interior Design
Credit: 1 (CP, O, W)
Students will use interior design theory, layout & design lines, symbols, and drawings to create original projects which will include the use of colors and furnishings. Projects will include kitchen and bath design as well as commercial and residential design. Furnishings will be emphasized.

K153 Practicum in Interior Design
Credit: 2-3 (O, CP, W)
Prerequisite: Advanced Interior Design
The practicum course is a paid or unpaid capstone experience or independent study course for students participating in a coherent sequence of career and technical education courses in the field of interior design. Instruction may be delivered through laboratory training or through career preparation delivery arrangements.

K155 Architectural Design
Prerequisite: Algebra I, Geometry, & Principles of Architecture & Construction (Recommended)
Credit: 1
In Architectural Design, students gain knowledge and skills specific to those needed to enter a career in architecture or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design and landscape architecture. Architectural Design includes the design, design history, techniques, and tools related to the production of drawings, renderings and scale models for residential architectural purposes.

K156 Advanced Architectural Design
Prerequisites: Architectural Design
Credit: 2-3
In Advanced Architectural Design, students gain advanced knowledge and skills specific to those needed to enter a career in architecture and construction or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design, and landscape architecture. Advanced Architectural Design includes the advanced knowledge of the design, design history, techniques, and tools related to the production of drawings, renderings, and scale models for commercial or residential architectural purposes.

K161 Construction Technology
Credit: 1 (CH, O)
Students will gain knowledge and skills related to various careers in the construction trade. Student acquire knowledge in areas such as: safety, measuring, laying-out, handtools/power tools, and assembling. Students will participate in hands-on lab activities, such as: blueprint reading, framing, roofing, etc.

K162 Advanced Construction Technology
Prerequisite: Construction Technology
Credit: 2 (CH, O)
Students will gain advanced knowledge and skills specific to those needed to enter the construction workforce. Advanced students will be expected to demonstrate safety practices, craftsmanship, and leadership abilities to first year students. Advanced students will be expected to participate at a high level in hands-on laboratory activities related to construction trades.

Arts, A/V Technology & Communications

K200 Principles of Arts, A/V Technology & Communication
Credit: 5 – 1
Students will develop an understanding of the various and multifaceted career opportunities in Arts, Audio/Video Technology & Communication and the knowledge, skills, and educational requirements for those opportunities.

K201 Animation
Prerequisite: Art I or Graphic Design Illustration and Principles of Arts, A/V Technology & Communication (Recommended)
Credit: 1 (CH, O, CP, W)
Students are introduced to the history, development and direction of the animation industry. The principles of animation are studied and implemented in each successive project as students...
develop their understanding of various animation techniques and build their skills in each application. Students will use software for 2-dimensional animations (Flash) and 3-dimensional modeling and animation (Anim8or and Maya). Students will design and produce animations and models for various media, from praxinoscopes and zoetropes to Flash movies and Maya models in 3D.

**K2022 Advanced Animation**  
**Prerequisite:** Animation  
**Credit:** 2 (CH, O, CP, W)  
Careers in animation span all aspects of motion graphics. Within this context, in addition to developing Advanced knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications career cluster, students will be expected to create two and three dimensional animations. The instruction also assists students seeking careers in the animation industry.

**K203 Audio Video Production**  
**Prerequisite:** Principles of Arts, A/V, Technology & Communication (Recommended)  
**Credit:** 1  
Students will be expected to develop an understanding of the audio and video industry with a focus on preproduction, production and postproduction activities. Students will demonstrate how to frame and maintain picture composition, analyze the script and storyboard development processes for a successful production, and understand audio techniques, including microphone variances and sound mixing. Students will use character generators, fonts, colors, and principles of composition to create graphic images. Students will also create audio and video technology products for a variety of purposes and audiences.

**K204 Advanced Audio Video Production**  
**Prerequisite:** Audio Video Production  
**Credit:** 2-3  
Students will identify specific elements of scriptwriting needed for a successful production, including cast, props, and sound effects. Students will demonstrate appropriate knowledge of components and digital editing. Students must understand the various delivery formats such as disk, broadcast, cellular, portable devices, electronic and online delivery. Students will discuss the responsibilities of directors, including the relationship to the production team and the responsibilities of crew members.

**K2052 Practicum in Audio/Visual Production**  
**Prerequisite:** Advanced Audio/Video Production or Advanced Animation  
**Transcript Code:** PRACAVT  
**Credit:** 2  
Students in this course will develop advanced technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications career cluster, and will be expected to develop an increasing understanding of the industry with a focus on applying pre-production, production, and post-production audio and video activities in a studio environment. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities.

**K205K Practicum in Audio/Visual Production**  
**Prerequisite:** Advanced Audio/Video Production or Advanced Animation  
**Transcript Code:** PRACAVT  
**Credit:** 3  
Students in this course will develop advanced technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications career cluster, and will be expected to develop an increasing understanding of the industry with a focus on applying pre-production, production, and post-production audio and video activities in a studio environment. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities.

**K207 Graphic Design and Illustration**  
**Prerequisite:** Principles of Arts, A/V, Technology & Communication (recommended)  
**Credit:** 1 (CH, O, CP, W)  
Students are introduced to the tools and skill sets required in the graphic design industry. Students will be expected to develop an understanding of the principles and elements of graphic design. Students will learn to use the following applications to support their design work: Adobe Photoshop, Adobe Illustrator, Adobe InDesign, Adobe Acrobat. Students will design and produce a wide range of graphic products, including posters, packaging, business graphics, and personal graphics.

**K2082 Advanced Graphic Design and Illustration**  
**Prerequisite:** Graphic Design and Illustration  
**Credit:** 2 (CH, O, CP, W)  
Advanced Graphic Design and Illustration provides students an opportunity to expand upon the knowledge and skills mastered in Graphic Design and Illustration. Students will create a variety of advanced pictorial renderings and will be given the opportunity to complete Adobe certifications.

**K2092 Practicum in Graphic Design and Illustration**  
**Prerequisite:** Advanced Graphic Design and Illustration, Advanced Commercial Photography, or Advanced Animation  
**Credit:** 2-3  
Take your knowledge of graphic design and illustration to the next level! Careers in graphic design and illustration span all aspects of the advertising and visual communications industry. In addition to developing technical skills, students will be expected to develop a technical understanding of the industry with a focus on skill proficiency. Instruction may be delivered through lab-based classroom experiences or career preparation (outside work) opportunities. This practicum course is designed to provide classroom technical instruction and on-the-job training experiences for students participating in a coherent sequence of Career and Technical Education courses in the field of Graphic Design.

In addition to technical knowledge and skills, students gain an understanding of career opportunities available in Graphic Design and what employers require to gain and maintain employment in these careers. Students will gain knowledge of the business aspect of working with and for customers. Students recognize the value of effective work ethics and attitudes and develop communications and problem-solving skills.

Students will create a portfolio of their work which will consist of original designs. The portfolio will benefit students seeking employment and higher education in the field of Graphic Design.

**K211 Commercial Photography**  
**Credit:** 1 (W)  
Commercial Photography is a modern, all digital course that teaches the
fundamentals of photography as a technical skill and computer based editing and post-processing. It focuses on the creation of quality imagery that meets high artistic and commercial standards.

K213 Fashion Design
Prerequisite: Principles of Arts, A/V Technology & Communications (Recommended)
Credit: 1 (CH, O, CP, W)
This laboratory course focuses on careers in the fashion and textile/apparel industries. Students will be exposed to the apparel production process from design concept to finished product. Course content includes apparel construction, care, and maintenance.

K214 Advanced Fashion Design
Prerequisite: Fashion Design
Credit: 2-3 (O, CP, W)
Students will develop an advanced understanding of fashion with an emphasis on design and construction of clothing. They will explore textiles and the appropriate uses as well manufacturing techniques. Students will use multiple machines in the construction of 3-4 projects.

K215 Practicum in Fashion Design
Prerequisites: Fashion Design and Advanced Fashion Design
Credit: 2-3 (O, CP)
In this lab-based class, students will create a portfolio of their work which will consist of original designs. Advanced sewing techniques will be taught. Students will gain knowledge of the business aspect of fashion and retailing. They will also gain knowledge of how to plan special events such as fashion shows and trunk shows.

K216 Business Management & Administration

K250 Principles of Business, Marketing & Finance
Credit: 3-1
Students are introduced to knowledge and skills of economics and private enterprise systems, impact of global business, marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles.

K251H Touch System Data Entry
Credit: .5 (CC, O, W)
Students apply technical skills to address business applications of emerging technologies. Students enhance reading, writing, computing, communication, and reasoning skills through use of proper keyboarding technique while developing speed and accuracy.

K252 Business Information Management I
Prerequisite: Principles of Business, Marketing & Finance (Recommended)
Credit: 1
Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and make successful transition to the workforce and post-secondary education. Students will apply technical skills through word-processing, spreadsheet, database, and electronic presentation software.

K253 Business Information Management II
Prerequisite: Business Information Management I
Credit: 1 (CC, CP, O, W)
Students implement personal and interpersonal skills to strengthen individual performance in the workplace and post-secondary education. Students will apply complex technical skills through word-processing and spreadsheet, and developing electronic presentations using multimedia software.

K255H Business Law
Prerequisite: Principles of Business, Marketing & Finance (Recommended)
Credit: .5 (CC, O, CP, W)
Students analyze the evolution and development of laws that govern business in our society. Students apply technical skills to address business applications of contemporary legal issues and analyze the social responsibility of business and industry.

K256H Global Business
Prerequisite: Principles of Business, Marketing & Finance (Recommended)
Credit: .5 (O, CP, W)
Students develop a foundation in financial, technical, international, social and ethical aspects of business. Students will study the global, competitive nature of business and develop reading, writing, communication and reasoning skills and apply them to the business environment. The skills obtained will assist them in making a successful transition to the workforce or post-secondary study.

K258H Virtual Business
Prerequisite: Principles of Business, Marketing & Finance (Recommended)
Credit: .5 (CP, O)
Students will be able to identify steps needed to locate customers, set fees and develop client contracts. Students will be able to provide administrative, creative, and technical services using advanced technological modes of communication and data delivery. The student builds a functional website that incorporates the essentials of a virtual business.

K259 Business Management
Prerequisite: Principles of Business, Marketing & Finance (Recommended)
Credit: 1-2 (CC, CP, O, W)
Students develop a foundation in the economic, financial, technological, international, social and ethical aspects of business to become competent managers, employees, and entrepreneurs. Students incorporate a broad range of knowledge that includes legal, managerial, marketing, financial, ethical and international dimensions of business to make appropriate management decisions.

K260 Practicum in Business Management I
Credit: 2-3 (H, O)
Prerequisite: Touch System Data Entry and Business Management (Recommended for grade 12)
The Practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society to make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies. Students develop a foundation in the economical, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students
incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions.

**K261 Practicum in Business Management II**
**Credit:** 2-3 (H, O)
**Prerequisite:** Touch System Data Entry and Business Management (Recommended for grade 12)
The Practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies. Students develop a foundation in the economical, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions.

**K275 Principles of Education and Training**
**Credit:** 5-1 (CC, CP, W)
Principles of Education and Training introduces students to the various careers available within education and training. Students will gain an understanding of the basic knowledge and skills essential to careers within education and training.

**K276 Human Growth and Development**
**Credit:** 1 (CC, CP, O)
**Prerequisite:** Principles of Education & Training (Recommended)
This course is a study of human development across the lifespan, from childhood to adulthood. Emphasis is placed on topics such as: research, theory, development, and common social, emotional, physical, and learning stages.

**K277 Instructional Practices in Education and Training**
**Prerequisite:** Principles of Education & Training (Recommended)
**Credit:** 1-2 (CC, CP, W)
A field-based internship that provides students with background knowledge of child and adolescent development as well as principles of effective teaching practices. Students will work under the joint direction and supervision of a teacher who has expertise in the areas of child development and educational methodology and an exemplary educator who is working in an instruction role in an elementary/middle/high school setting. Students will learn to plan and direct individualized instruction and group activities, prepare instructional materials, develop materials for educational environments, assist with record keeping, and complete other responsibilities of teachers.

**K278 Practicum in Education and Training**
**Credit:** 2-3 (CC, CP, W)
**Prerequisite:** Instructional Practices in Education and Training.
This course is a field-based internship that provides students background knowledge of child and adolescent development principles as well as principles of effective teaching and training practices. Students in the course work under the joint direction and supervision of both a teacher with knowledge of early childhood education and exemplary educators in direct instructional roles with elementary-, middle school-, and high school-aged students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, assist with record keeping, make physical arrangements, and complete other responsibilities of classroom teachers, trainers, paraprofessionals, or other educational personnel.

**K250 Principles of Business, Marketing & Finance**
**Credit:** .5
Students are introduced to knowledge and skills of economics and private enterprise a systems, impact of global business, marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles.

**K300H Money Matters**
**Prerequisite:** Principles of Business, Marketing & Finance (Recommended)
**Credit:** .5 (CC, CH, O, CP, W)
Students will investigate global economics in the free enterprise system and its impact on consumers and businesses. Students apply critical thinking skills to analyze financial options based on current and projected economic factors. Students will gain knowledge and skills necessary to set long-term goals based on these options. Students will determine methods of achieving long-term financial goals through investment, tax planning, asset allocation, risk management, retirement planning, and estate planning.

**K301H Banking and Financial Services**
**Prerequisite:** Principles of Business, Marketing and Finance (Recommended)
**Credit:** 1
Students develop knowledge and skills in the economical, financial, technological, international, social, and ethical aspects of banking to become competent consumers, employees, and entrepreneurs. Students incorporate a broad base of knowledge that includes the operations, sales, and management of banking institutions to gain a complete understanding of how banks function within society.

**K304 Accounting I**
**Prerequisite:** Principles of Business, Marketing, and Finance (Recommended)
**Credit:** 1
Students investigate the field of accounting, including how it is impacted by industry standards as well as economic, financial, technological, international, social, legal, and ethical factors. Students reflect on this knowledge as they engage in the process of recording, classifying, summarizing, analyzing, and communicating accounting information. Students formulate and interpret financial information for use in management decision making.

**K305 Accounting II**
**Prerequisite:** Accounting I
**Credit:** 1 (CC, O, CP, W)
Students continue the investigation of the field of accounting, including how it is impacted by industry standards as well as economic, financial,
technological, international, social, legal, and ethical factors. Students reflect on this knowledge as they engage in various managerial and cost accounting activities. Students formulate and interpret financial information for use in management decision making.

K3071 Statistics & Risk Management
Prerequisite: Accounting I and Algebra II (Recommended)
Credit: 1
Students will use a variety of graphical and numerical techniques to analyze patterns and departures from patterns to identify and manage risk that could impact an organization. Students will use probability as a tool for anticipating and forecasting data within business models to make decisions. Students will determine the appropriateness of methods used to collect data to ensure conclusions are valid.

Health Science

K350 Principles of Health Science
Prerequisite: Biology (Concurrent)
Credit: 5 - 1 (CH, O, CP, W)
The Principles of Health Science provides an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the health care industry.

K351H Medical Terminology
Credit: 5 (CH, O, CP, W)
Prerequisite: Principles of Health Science (Recommended)
This course introduces students to the structure of medical terms, including word roots, prefixes and suffixes and abbreviations.

K352 Health Science
Prerequisites: Biology, Principles of Health Science (Recommended)
Credit: 1 – 2 (CH, O, CP, W)
The Health Science course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skill development. The course may be taught by different methodologies such as clinical rotation and career preparation learning. Participation may require personal transportation to potential clinical rotations.

K353 Practicum in Health Science
Prerequisites: Health Science & Biology (Recommended)
Credit: 2 – 3 (O, CP, W)
The Practicum is designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. Participation may require personal transportation, background check, and possible drug testing.

K355 Anatomy & Physiology Honors
Prerequisites: Biology I and Chemistry I
Credit: 1
This course is an in-depth study of the systems of the human body. Each system is investigated using illustrations, microscope slide studies, physiological experiments, computer simulations, and detailed dissections of the cat.

K356H Medical Microbiology Honors
Prerequisite: Anatomy & Physiology
Credit: .5 (CH, O)
Students will study the relationships of microorganisms to wellness and disease. They develop knowledge and skills related to disease prevention by learning the chain of infection, asepsis, and standard precautions. Pathogenic and nonpathogenic organisms will be identified to assist in the understanding of specific diseases, causative agents, and treatment options.

K357 Pathophysiology Honors
Prerequisite: Anatomy & Physiology (Recommended)
Credit: .5 – 1 (CH, O, CP)
This course allows students to conduct laboratory investigations and fieldwork, use scientific methods during investigations, and make informed decisions using critical thinking and problem solving. Students in Pathophysiology study disease processes, and how human systems are affected. Emphasis is placed on prevention and treatment of diseases. Students will differentiate between normal and abnormal physiology. The course must include at least 40% laboratory investigation and fieldwork using appropriate scientific inquiry.

Hospitality & Tourism

K375H Principles of Hospitality and Tourism

K377H Restaurant Management
Credit: 5
This course will emphasize the principles of planning, organizing, staffing, directing, and controlling the management of a variety of food service operations. Students will gain insight into the operation of a well-run restaurant.

K378H Travel and Tourism Management
Credit: 5 (CC, O, W)
This course incorporates management principles and procedures of the travel and tourism industry as well as destination geography, airlines, international travel, cruising, travel by rail, lodging, recreation, amusements, attractions, and resorts. Employment qualifications and opportunities are also included in this course.

K379 Culinary Arts
Prerequisite: Lifetime Nutrition & Wellness or Restaurant Management (Recommended)
Credit: 1-2
This laboratory-based course begins with the fundamentals and principles of the art of food preparation and includes management and production skills and techniques. Students can pursue a national sanitation certification and other appropriate industry certifications. The knowledge and skills required for careers in the restaurant, food, and beverage industry are practiced as food is prepared.

K380 Practicum in Culinary Arts
Prerequisite: Culinary Arts
Credit: 2-3
This course is a unique practicum that provides occupationally-specific opportunities for students to participate in a learning experience that combines classroom instruction with actual business and industry career experiences. Students will be given scholarship opportunities through food service competitions and will be able to develop and sharpen job readiness skills through training in ethics, leadership, and hands-on experiences.
Human Services

K400H Principles of Human Services
Credit: 5 (CH, O, W)
This laboratory course will enable students to investigate careers in the human services career cluster, including counseling and mental health, early childhood development, family and community, and personal care services. Each student is expected to complete the knowledge and skills essential for success in high-skill, high-wage, or high-demand human services careers.

K401H Dollars and Sense
Credit: 5 (O, CP, W)
This course focuses on consumer practices and responsibilities, the money management process, decision-making skills, the impact of technology on financial management, and preparation for human services careers.

K402H Interpersonal Studies
Credit: 5 (W)
This course examines how the relationships between individuals and among family members significantly affect the quality of life. Students use knowledge and skills in family studies and human development to enhance personal development, foster quality relationships, promote wellness of family members, manage multiple adult roles, and pursue careers related to counseling and mental health services.

K403 Lifetime Nutrition & Wellness
Credit: 5 – 1
This laboratory course allows students to use principles of lifetime wellness and nutrition to help them make informed choices that promote wellness as well as pursue careers related to hospitality, human services, and health sciences. Laboratory experiences will focus on the integration of nutrition and wellness knowledge with basic food preparation and management skills.

K405H Child Development
Credit: 5 (CC, CH, O, W)
This course addresses knowledge and skills related to child growth and development from prenatal through school-age children. Students will become equipped with child development knowledge that can be used to promote the well-being and healthy development of children and to investigate careers related to the care and education of children.

K406 Child Guidance
Credit: 1 – 2 (CC, CH, O)
Child Guidance provides students classroom instruction and laboratory experience to prepare for a career related to the care, guidance and education of preschool children. The Pre-Employment Laboratory Child Care Program allows students the opportunity to implement their lesson plans in an Early Education classroom located on the campus. Students learn to plan nutritious meals, follow safety procedures, determine guidance techniques and create educationally-sound activities. In addition, students will explore careers related to Early Childhood education. Completion of the program will prepare students for higher education courses and employment in entry-level childcare programs.

K408 Practicum in Human Services I
Prerequisite: Child Guidance (recommended)
Credit: 2–3 (CH, O)
This practicum provides occupationally specific training and focuses on the development of careers in early childhood. Practicum in Human Services expands the skills and knowledge gained in Child Guidance to a managerial view of a career in the child care field. Instruction will be delivered in a laboratory setting at the campus’ Pre-Employment Laboratory Child Care Program. Students will learn business tools and will collaborate within a teamwork effort to efficiently provide a professional environment in an Early Childhood setting. Productivity will culminate with a professional portfolio that will include a resume and work samples. The portfolios will benefit students seeking employment and higher education in an Early Childhood setting.

K409 Practicum in Human Services II
Prerequisites: Practicum in Human Services I
Credit: 2–3 (CH, O)
This practicum provides occupationally specific training and focuses on the development of careers in the areas of consumer services, early childhood development and services, counseling, nutrition and wellness, hospitality and food services, fashion and interior design, and family and community services. Content is designed to meet the occupational preparation needs and interests of students by placing them in a paid employment setting.

K411 Cosmetology I
Credit: 3
Provides students with the basic specific classroom training needed to achieve their Texas Cosmetology License. Students will also be able to work on outside clientele for hands-on training. Students will be expected to purchase their beginners training kit during the first week of school. Students will be required to have completed 500 clocked hours before advancing to Cosmetology II.

K412 Cosmetology II
Prerequisite: Cosmetology I
Credit: 3
Upon completion of their Senior year and the required 1500 hours total, students will have received classroom training needed to prepare them for their Cosmetologist Exam from the Texas Department of Licensing and Regulations. Students will also be able to work on outside clientele for hands-on training.

Information Technology

K425 Principles of Information Technology
Credit: 5 – 1 (W)
Students develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment.

K426 Computer Maintenance
Credit: 1 (W)
Students acquire principles of computer maintenance, including electrical and electronic theory, computer hardware principles, and broad level components related to the installation, diagnosis, service, and repair of computer systems.

K431 Digital & Interactive Media
Credit: 1 (W)
Through the study of digital and interactive media and its application in information technology, students will analyze and assess current and emerging technologies, while designing and creating multimedia projects that address customer needs and resolve a problem. Students implement personal...
and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven society. Students enhance reading, writing, computing, communication, and critical thinking and apply them to the information technology environment.

K432 Web Technologies  
Prerequisite: Principles of Information Technology  
Credit: 5-1 (W)  
Through the study of web technologies and design, students learn to make informed decisions and apply the decisions to the field of information technology. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven society. Students enhance reading, writing, computing, communication, and critical thinking and apply them to the information technology environment.

K437 Internetworking I  
Credit: 1-2 (W)  
K438 Internetworking II  
Credit: 1-3 (W)  
This is an advanced technology course designed to develop networking skills which includes understanding the concepts of networking and the technology industry standards. This is a hands-on course where students will learn how to design and construct LANs (local area networks) and WANs (wide area networks) using equipment such as RJ45 jacks, UTP cabling, cable, cable testers, crimpers, patch cords, patch panels, transceivers, hubs, switches, and routers. This course prepares students for the CCNA certification test.

Law, Public Safety, Corrections & Security

K451 Law Enforcement I  
Credit: 1 (CH, O)  
Law Enforcement I is an overview of the history, organization, and functions of local, state, and federal law enforcement. This course includes the role of constitutional law, the United States legal system, criminal law, law enforcement terminology, and the classification and elements of crime.

K452 Law Enforcement II  
Prerequisite: Law Enforcement I  
Credit: 1 (CH, O)  
Law Enforcement II introduces students to the knowledge and skills necessary to prepare for a career in law enforcement. This course includes the ethical and legal responsibilities, operation of police and emergency telecommunications equipment, and courtroom testimony.

K453 Forensic Science  
Prerequisite: Biology and Chemistry.  
Prerequisite: Law Enforcement I (Recommended)  
Credit: 1 
Forensic Science uses a structured and scientific approach to the investigation of crimes such as assault, abuse and neglect, domestic violence, accidental death, and homicide. Students will learn terminology and investigative procedures related to crime scenes, questioning and interviewing, and scientific procedures used to solve criminal acts. Using scientific methods, students will collect and analyze evidence through case studies and simulated crime scenes. Students will conduct fingerprint, ballistics, and blood spatter analysis. Students will gain knowledge and understanding of forensic science by studying the history, legal aspects, and career opportunities in the field of forensics.

K454 Court Systems & Practices  
Prerequisite: Law Enforcement I  
Credit: 1 (CH)  
Court Systems and Practices is an overview of the federal and state court systems. The course identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and interrogation.

K456 Internetworking II  
Credit: 1-2 (W)  
K458 Internetworking III  
Credit: 1-3 (W)  
This is an advanced technology course designed to develop networking skills which includes understanding the concepts of networking and the technology industry standards. This is a hands-on course where students will learn how to design and construct LANs (local area networks) and WANs (wide area networks) using equipment such as RJ45 jacks, UTP cabling, cable, cable testers, crimpers, patch cords, patch panels, transceivers, hubs, switches, and routers. This course prepares students for the CCNA certification test.

Marketing

K250 Principles of Business, Marketing & Finance  
Credit: 5-1  
Students are introduced to knowledge and skills of economics and private enterprise a systems, impact of global business, marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles.

K500 Advertising & Sales Promotion  
Prerequisite: Principles of Business, Marketing & Finance (Recommended)  
Credit: 5-1 (CC, CP, W)  
Advertising and Sales Promotion is a comprehensive introduction to the principles and practices of advertising. Students will gain knowledge of techniques used in current advertising, including print, broadcast, and digital media. The course explores the social, ethical, and legal issues of advertising, historical influences, strategies, and media decision processes as well as integrated marketing communications. The course provides an overview of how communication tools can be used to reach target audiences and increase consumer knowledge.

K501 Fashion Marketing  
Prerequisite: Principles of Business, Marketing & Finance (Recommended)  
Credit: 5-1 (CC, CP, W)  
Fashion Marketing is designed to provide students with knowledge of various business functions in the fashion industry. Students in Fashion Marketing will gain a working knowledge of promotion, textiles, merchandising, mathematics, selling, visual merchandising, and career opportunities.

K502 Entrepreneurship  
Prerequisite: Principles of Business, Marketing & Finance (Recommended)  
Credit: 5 – 1 (CC, CP, O, W)  
Students will gain the knowledge and skills needed to become an entrepreneur.

K476 Welding  
Prerequisite: Algebra I (recommended)  
Credit: 1-2 (CC, CH, O, W)  
Welding provides the knowledge, skills, and technologies required for employment in metal technology systems. Students develop knowledge and skills related to this system and apply them to personal career development. This course supports integration of academic and technical knowledge and skills. Students will reinforce, apply, and transfer knowledge.

K477 Advanced Welding  
Credit: 2-3 (CC, CH, O)  
Advanced Welding builds on the knowledge and skills developed in Welding I. Students will develop advanced welding concepts and skills as they relate to personal and career development.
entrepreneur. Students will learn the principles necessary to begin and operate a business. The primary focus of the course is to help students understand the process of analyzing a business opportunity, preparing a business plan, determining feasibility of an idea using research, and developing a plan to organize and promote the business and its products and services. In addition, students understand the capital required, the return on investment desired, and the potential for profit.

K503H Retailing and E-tailing
Prerequisite: Principles of Business, Marketing & Finance (Recommended)
Credit: .5 (CP, O, W)
Students will develop skills that involve electronic media techniques necessary for a business to compete in a global economy. Students will coordinate online and off-line marketing. Students will demonstrate critical-thinking skills used in decision-making models, case studies, various technologies, and business scenarios.

K504H Sports & Entertainment Marketing
Prerequisite: Principles of Business, Marketing & Finance (Recommended)
Credit: .5 (CC, O, CP, W)
This course will provide students with a thorough understanding of the marketing concepts and theories that apply to sports and sporting events and entertainment. The areas this course will cover include basic marketing, target marketing and segmentation, sponsorship, event marketing, promotions, sponsorship proposals, and implementation of sports and entertainment marketing plans. This course will also provide students an opportunity to develop promotional plans, sponsorship proposals, endorsement contracts, sports and entertainment marketing plans, and evaluation and management techniques.

K505 Marketing Dynamics
Prerequisite: Principles of Business, Marketing & Finance, and required employment averaging 10-15 hours per week.
Credit: 2-3 (CP)
Marketing is a series of dynamic activities that focus on the customer to generate a profitable exchange. Students gain knowledge and skills that help them to be proficient in one or more of the marketing functional areas associated with distribution, financing, marketing information management, pricing, product planning, promotion, purchasing, risk management, and selling skills. Students integrate skills from academic subjects, information technology, interpersonal communication, and management training to make responsible decisions. This course may include paid or unpaid career preparation experience.

K506 Practicum in Marketing Dynamics  I
Prerequisites: Marketing Dynamics and required employment averaging 10-15 hours per week
Credit: 2-3 (CP)
Through course required employment, students gain knowledge and skills that help them become proficient in one or more of the marketing functional areas. Students will illustrate appropriate management and research skills to create the marketing mix. This course covers technology, research, communication, and customer-service skills. The practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. The practicum course is a paid or unpaid experience for students participating in a coherent sequence of career and technical education courses in marketing education.

K525 Concepts of Engineering and Technology
Credit: .5 – 1 (CC, CH)
Concepts of Engineering and Technology provide an overview of the various fields of science, technology, engineering, and mathematics through the use of modular laboratory. Students will use a variety of computer hardware and software applications to complete assignments and projects. Students will have worked in design teams to develop a product or system. Students will use multiple software applications to prepare and present course assignments, relative to communication, construction, energy, aerospace, and more.

K527 Advanced Biotechnology
Prerequisites: Biology and Chemistry
Credit: 1 (CP)
Students will apply advanced academic knowledge and skills to the emerging fields of biotechnology such as agricultural, medical, regulatory, and forensics. Students will have the opportunity to use sophisticated laboratory equipment, perform statistical analysis, and practice quality-control techniques.

K528 Engineering Design & Presentation
Prerequisites: Algebra I recommended
Credit: 1 (CC, CH, O, W)
Students enrolled in this course will demonstrate knowledge and skill of the process of design as it applies to engineering fields using software applications and tools necessary to produce and present working drawings and prototypes. Students will use computer hardware and software applications to complete assignments and projects. Through implementation of the design process, students will transfer advanced academic skills to component designs. Additionally, students explore career opportunities in engineering, technology, and drafting and what is required to gain and maintain employment in these areas.

K529 Advanced Engineering Design & Presentation
Prerequisite: Engineering Design & Presentation
Credit: 2
This course will provide students the opportunity to master computer software applications in a variety of engineering and technical fields. This course further develops the process of engineering thought and application of the design process. Students apply concepts of engineering and use a variety of technologies to develop prototypes to solve specific problems.

K531 Electronics
Credit: 1 (CC)
Students enrolled in this course will demonstrate knowledge and applications of circuits, electronic measurement, and electronic implementation. Through use of the design process, students will transfer academic skills to component designs in a project-based environment. Students will use a variety of computer hardware and software applications to complete assignments and projects. Additionally, students explore career opportunities, employer expectations, and educational needs in the electronics industry.

K534 Principles of Technology
Prerequisites: Biology I, Chemistry, and Algebra I  
Credit: 1  
Students will conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Various systems will be described in terms of space, time, energy, and matter. Students will study a variety of topics that include laws of motion, conservation of energy, momentum, electricity, magnetism, thermodynamics, and behavior of waves.

K535 Scientific Research and Design  
Prerequisite: Concurrent enrollment in Biology  
Credit: 1  
The purpose of this class is to introduce students to scientific research and to prepare them for their Individual Experimental Research Project (IERP). Students will learn problem identification, methods of library and computer searching, research methodologies, and data analysis and presentation. Students will also develop appropriate skills in computer applications, time management, and technical writing. Verbal and graphic communication opportunities will be provided. The concept of the research team will be explored, and importance of peer review and research ethics will be stressed.

K536 Scientific Research and Design II Honors  
Prerequisite: Biology and Chemistry  
Credit: 1  
The first semester of this course will introduce students to the fundamentals of electronic circuits. Students will build analog and digital direct-current circuits using breadboards. There will also be limited exposure to programmable logic chips. Each student will design and prototype a battery-powered device. During the spring, the students will apply the principles learned in the fall to the design and construction of robots. They will explore the ways robots interact with their surroundings by testing a variety of sensors and interfacing them with programmable logic chips. Some simple programming experience is desirable.

K5382 Practicum in STEM  
Credit: 2  
Careers in Science, Technology, Engineering, & Mathematics (STEM) are challenging and innovative. Students who pursue one of these career fields will be involved in planning, managing, and providing scientific research and professional and technical services (e.g., physical science, social science, engineering) including laboratory and testing services, and research and development services. The STEM courses are productive, comprehensive and experience-based that allow students to investigate and experience the means by which humans meet their needs and wants, to solve problems, and extend their competencies. CTE is concerned with the knowledge and skills to develop, produce, and use products or services and how to measure the impact these activities have on humans and the world. The study of technology allows students to reinforce, apply, and transfer their academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. In addition to their general academic and technical knowledge and skills, students gain an understanding of career opportunities available in technology and what employers require for workers to gain and maintain employment in the 21st century. Possible career pathway models for Science, Technology, Engineering and Mathematics include: Aerospace Engineer, Computer Engineer, Product Designer, Mechanical Engineer, Manufacturing Supervisor, Robotics Technician, Civil Engineer and Laser Technician.

Transportation, Distribution & Logistics  

K53792E Automotive Technology  
Credit: 2  
Automotive services include knowledge of the function of the major automotive systems and the principles of diagnosing and servicing these systems. In Automotive Technology, students gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach the theory of operation of automotive vehicle systems and associated repair practices in a pre-employment laboratory.

K5802E Advanced Automotive Technology  
Prerequisite: Automotive Technology  
Credit: 3  
Automotive services include advanced knowledge of the function of the major automotive systems and principles of diagnosing and servicing these systems. In Advanced Automotive Technology, students gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach the theory of operation of automotive vehicle systems and associated repair practices in a pre-employment laboratory.

K581 Collision Repair & Refinishing  
Credit: 2  
Provides a two year program in the areas of: auto metal repair and reconditioning, auto rebuilding and auto refinishing, estimating costs of auto body repairs, and developing proper techniques for the applications of oxyfuel welding, cutting, ranging, soldering, and electric welding processes.

K582 Advanced Collision Repair & Refinishing  
Prerequisite: Collision Repair & Refinishing  
Credit: 2  
Students will continue learning in the area of Collision Repair & Refinishing. In the second semester of this course students will be afforded the opportunity to work in an industry in a related field. This real world work experience can take the form of either an internship or as career preparation training through the coordination of the Instructor.

Computer Science  

860 Computer Science I PreAP  
Prerequisite: Algebra I (recommended)  
Credit: 1  
This course is designed to provide an in-depth study of the major components of computer science. Course content will include programming methodologies, simple data structures, algorithms, and an introduction to Object Oriented Programming design and implementation. The program language used is Java and the development environment is JCreator. Both are free software to encourage student use at home.
Technology Applications II
Prerequisite: Computer Science I PreAP
Credit: 1 (CH, W)
Computer Science II is a continuation of the object oriented programming techniques studied in Computer Science I. Course is taught using the Java programming language. Topics include advanced programming algorithms and data structures including Java Collections, big-O analysis, sorting techniques, recursion, linked lists, stacks, queues, and trees.

Technology Applications III
Credit: 1 (CP)
These project-based courses are intended to provide opportunities for students to either explore topic areas in computer science in greater depth and/or breadth than is possible in the PreAP/AP Computer Science sequence. Programming topics will center on object-oriented programming (OOP) with languages such as C++, Turbo C++, Perl, Visual Basic, Visual C++, and Professional Builder C++. Multifile programming may also be included. Other possible projects include networking, web mastering, advanced digital graphics and animation, and game design.

Military Science

8801 Reserve Officers Training Corps (ROTC) I

8802 Reserve Officers Training Corps (ROTC) II

8803 Reserve Officers Training Corps (ROTC) III

8804 Reserve Officers Training Corps (ROTC) IV

Credit: 1
This course introduces students to the U.S. Armed Forces and the rights, responsibilities, privileges, and freedoms that underlie good citizenship. It helps students develop leadership skills, communications techniques, and the ability to work with others. Cadets develop a strong sense of pride in self, associates, school and community. They will also learn drill, physical conditioning, and skills associated with the military branch in which they are enrolled. Please refer to individual campus brochures for complete course information.

Other

KM3622 Certified Nurse Aide & Phlebotomy Training
Prerequisite: 18 years of age by October 15, application
Credit: 2
This preparation course is designed for entry level nursing assistants to achieve a level of knowledge, skills and abilities essential to provide basic care to residents of long-term care facilities. Topics include residents’ rights, communication, safety, observation, reporting and assisting residents in maintaining basic comfort and safety. Emphasis is placed on effective interaction with members of the healthcare team. Some clinical time is arranged outside of the classroom hours. It is the student’s responsibility to pay for the CNA certification exam, personal liability insurance, and uniform.

KM4631E Disaster Response
Credit: 1
This course is designed to assist students in understanding the consequences of emergencies and disasters and in preparing for their roles and responsibilities in an emergency. In addition, the course has information on addressing mental health needs and the needs of special populations in an emergency.

The purpose of this course is to uncover the principles that promote effective disaster response and recovery operations. To achieve this goal, the course will examine the nature of disasters as well as the roles and responsibilities of various actors involved in emergency management. The importance of addressing the needs of the affected population will be discussed, and will include recommendations to fulfill a variety of important response and recovery functions. Various problems associated with response and recovery operations will be identified. The role of technology and the importance of communications and coordination will be emphasized. Each student will be expected to gain a solid comprehension of common post-disaster problems and how responders may overcome those challenges now and in the future.

KM4642E EMT/Clinicals
Credit: 2
Preparation for certification as an Emergency Medical Technician (EMT). Includes all the skills necessary to provide emergency medical care at a basic life support level with an emergency service or other specialized services. Student purchases textbook and provides uniform and proof of immunizations. Course completion requires two classes, EMT-Basic - and EMT-Basic Clinical.

**KM4762E  Welding I**
Credit: 2

**KM4772E  Welding II**
Credit: 2
Course is located at Lone Star College – Conroe Center. Students will pursue the American Welding Certification through these courses. Instruction is designed to provide job-specific training for entry-level employment in welding careers. First-year instruction includes blueprint reading, cutting and welding with oxygen and gas fuels, shielded metal arc welding, gas tungsten arc and gas metal arc welding processes. The second-year instruction enhances job-specific training for employment in welding careers.

**KM4782E  Precision Metal Manufacturing**
Credit: 2

**KM4792E  Advanced Precision Metal Manufacturing**
*CNC offered at Lone Star*
Credit: 2
Instruction is designed to provide job-specific training for entry-level employment skills in metal machinist careers. First year instruction includes precision measuring, blueprint reading, drilling, turning, coring, milling, broaching, reaming, with instruction in numerically-controlled machining. Second year instruction enhances job-specific training in metal machinist careers.

**KM5792E  Automotive Technology**
(This course is a combination of Automotive Technology and Advanced Automotive Technology)
Credit: 2
Course is located at Lone Star College Conroe Center. Automotive services include advanced knowledge of the function of the major automotive systems and principles of diagnosing and servicing these systems. In Automotive Technology, students gain knowledge and skills in the repair, maintenance and diagnosis of vehicle systems. This study allows student to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach the theory of operation of automotive vehicle systems and associated repair practices in a pre-employment laboratory.

**885H  Driver Education**
Credit: .5 (O)
Prerequisite: Students must be at least 15 years old before taking the driving section of the course and have a social security card. Fees will apply. Please note that parent-supervised driving outside of this course is required to receive the certificate of completion.
7th Grade Courses

7110 Language Arts 7  
*Credit: 1*  
In 7th grade, students refine and master previously learned knowledge and skills that make up the basic foundation blocks of language arts. Emphasis is placed on developing literary, composition, grammar, vocabulary and spoken skills. Students continue to read widely in classic, contemporary and informational text selections and to use different forms of writing with a strong emphasis on conventions and style on a regular basis. This course will strengthen knowledge and increase the academic challenge of all students.

7120 Language Arts 7 PreAP  
*Credit: 1*  
PreAP language arts in 7th grade covers more elaborate complex and in-depth studies of literature, composition, grammar and vocabulary in addition to the state standards as outlined in the TEKS objectives required of all students. It is also at a higher level of difficulty than that in grade-level classes. This course begins the foundation of vertically aligned skills and strategies needed for success in AP English courses.

7201 Math 7  
*Credit: 1*  
The primary focal points at grade 7 are using proportional relationships in numbers, geometry, measurement, and probability; applying addition, subtraction, multiplication, and division of decimals, fractions, and integers; and using statistical measures to describe data. Students will learn the necessary skills to critically think at a higher-level and to meet the state standards as outlined in the TEKS objectives.

7205 PreAlgebra 7 PreAP  
*Credit: 1*  
The course builds a foundation of basic understandings in number, operation, and quantitative reasoning; patterns, relationships, and algebraic thinking; geometry and spatial reasoning; measurement; and probability and statistics. The course content will include complex, and in-depth study of major ideas, problems, and themes in order to extend and deepen comprehension.

7300 Science 7  
*Credit: 1*  
Science for grade 7 is an integration of life, earth and physical sciences but will focus more strongly on life science. Students will conduct investigations to learn about the natural world through questioning, observing, and drawing conclusions.

7303 Science 7 PreAP  
*Credit: 1*  
PreAP grade 7 Science begins the foundation of vertically aligned skills and strategies for success in AP courses in science. The course follows a similar curriculum with greater depth and complexity. Students are required to complete a long-term project typically requiring additional time outside of school.

7400 Texas History 7  
*Credit: 1*  
Students explore eras of Texas history from the cultures of Native Americans to the modern day urban society. The structure and function of governments as well as the rights and responsibilities of Texas citizens help students to understand the importance of patriotism and appreciate the basic democratic values of our state and nation.

7403 Texas History 7 PreAP  
*Credit: 1*  
Pre-AP Texas history begins the foundation of vertically aligned skills and strategies for success in AP courses in the social studies. The course centers on the process of learning factual information, developing analytical skills, and writing clearly.

7500 Physical Education 7  
*Credit: 1*  
Students will participate in activities to increase their cardiovascular endurance and flexibility. They will earn aspects of different team and individual sports. The goal is to improve a student’s physical and social skill level and to provide students with a positive experience to prepare them for team sports as well as a lifetime of exercise.

7505 Girls’ Basketball  
*Credit: 1*  
Students who sign up for athletics are making the commitment to remain in that program for the entire year. Each athlete will be responsible for providing transportation to and from practices as well as transportation home after games. Please read the athletic information prior to participation and talk with a coach if you have any questions. Students who try out for a sport but are not selected will remain in the course to build physical skills for a subsequent year tryout.

7505 Drill Team/Dance 7  
*Credit: 1*  
Tryouts for drill team will be before the end of the current school year. Students chosen for the team will automatically be enrolled in this class. Students will master movement principles and skills, self-discipline and healthy bodies. Attendance and practice requirements, performances, membership, and cost requirements will be discussed before tryouts.

7511 Volleyball 7  
*Credit: 1*  

7512 Football 7  
*Credit: 1*  

7513 Boys’ Basketball 7  
*Credit: 1*  

7514 Private PE  
*Credit: 1*  
This course is for students who participate in a minimum of fifteen hours per week in highly intensive, professional, supervised training in an approved sport outside the school day. In order to be enrolled in this class, students must process the required paperwork to receive district approval.

7515 Private PE 7 –Level 2  
*Credit: 1*  

7516 Soccer 7  
*Credit: 1*  
This course will focus on the fundamentals of soccer as well as allowing the students to practice their newly acquired skills.

7517 Girls’ Basketball 7  
*Credit: 1*  

---

*Catalog of Courses: Junior High*
Focus more strongly on earth science.

Science for grade 8 is an integration of objectives, standards as outlined in the TEK higher level and to meet the state

Statistics. Students will learn the measurement; and probability and geometry and spatial reasoning; relationships, and algebraic thinking; and quantitative reasoning; patterns, understandings in number, operation, and combinations, grammar and vocabulary. This course will continue building the foundation blocks of language arts and skills that make up the basic foundation of vertically aligned skills. This course will focus on the process of learning factual information a classic, contemporary, and horizontal course. The class incorporates a wide variety of events and issues related to the eras. Students study the history of the United States from colonial times through Reconstruction. The course focuses on the political, economic, and social events and issues related to the eras. The class incorporates a wide variety of primary sources and biographical information to develop an understanding of the past.

PreAP US History 8 Credit: 1
Pre-AP US history builds on the foundation of vertically aligned skills and strategies for success in AP courses in the social studies. The course centers on the process of learning factual information, developing analytical skills, and writing clearly.

8403 US History 8 PreAP Credit: 1
Pre-AP US history builds on the foundation of vertically aligned skills and strategies for success in AP courses in science. The course follows a similar curriculum with greater depth and complexity. Students are required to complete a long-term project typically requiring additional time outside of school.

Students will conduct investigations to learn about the natural world through questioning, observing, and drawing conclusions.

8303 Science 8 PreAP Credit: 1
PreAP grade 8 Science continues to develop skill for success in AP courses in science. The course follows a similar curriculum with greater depth and complexity. Students are required to complete a long-term project typically requiring additional time outside of school.

Students who sign up for athletics are making the commitment to remain in that program for the entire year. Each athlete will be responsible for providing transportation to and from practices as well as transportation home after games. Please read the athletic information prior to participation and talk with a coach if you have any questions.

8511 Volleyball 8 Credit: 1 (I, K, Mc, M, P)

8512 Football 8 Credit: 1

8513 Boys’ Basketball 8 Credit: 1 (I, K, Mc, M, P, Y)

8514 Private PE 8 Credit: 1
This course is for students who participate in a minimum of fifteen hours per week in highly intensive, professional, supervised training in an approved sport outside the school day. In order to be enrolled in this class, students must process the required paperwork to receive district approval. See the counselor for additional information.

8515 Private PE 8 –Level 2 Credit: 1

8516 Soccer 8 Credit: .5 (I, K, M, P)
This course will focus on the fundamentals of soccer as well as allowing the students to practice their newly acquired skills.

8517 Girls’ Basketball 8 Credit: 1 (I, K, Mc, M, P)

8526 Cross Country 8 Credit: 1 (I, K, Mc, P)
Cross Country is for anyone interested in running. Daily workouts consist of running two to five miles depending on physical conditioning and workout schedule. Cross Country meets involve running a two mile race where most courses go through parks, trails, and other types of terrain.

8526 Cross Country 8 Credit: 1 (I, K, Mc, P)
Cross Country is for anyone interested in running. Daily workouts consist of running two to five miles depending on physical conditioning and workout schedule. Cross Country meets involve running a two mile race where most courses go through parks, trails, and other types of terrain.

8500 Physical Education 8 Credit: .5 - 1
Students will participate in activities to increase their cardiovascular endurance and flexibility. They will earn aspects of different team and individual sports. The goal is to improve a student’s physical and social skill level and to provide students with a positive experience to prepare them for team sports as well as a lifetime of exercise.

8505 Drill Team/Dance 8 Credit: 1
Tryouts for drill team will be before the end of the current school year. Students chosen for the team will automatically be enrolled in this class. Students will master movement principles and skills, self-discipline and healthy bodies. Attendance and practice requirements, performances, membership, and cost requirements will be discussed before tryouts.

8509/8510 Girls’ Athletics/Boys’ Athletics 8 Credit: 1

Students will conduct investigations to learn about the natural world through questioning, observing, and drawing conclusions.

8303 Science 8 PreAP Credit: 1
PreAP grade 8 Science continues to develop skill for success in AP courses in science. The course follows a similar curriculum with greater depth and complexity. Students are required to complete a long-term project typically requiring additional time outside of school.

Students who sign up for athletics are making the commitment to remain in that program for the entire year. Each athlete will be responsible for providing transportation to and from practices as well as transportation home after games. Please read the athletic information prior to participation and talk with a coach if you have any questions.

8511 Volleyball 8 Credit: 1 (I, K, Mc, M, P)

8512 Football 8 Credit: 1

8513 Boys’ Basketball 8 Credit: 1 (I, K, Mc, M, P, Y)

8514 Private PE 8 Credit: 1
This course is for students who participate in a minimum of fifteen hours per week in highly intensive, professional, supervised training in an approved sport outside the school day. In order to be enrolled in this class, students must process the required paperwork to receive district approval. See the counselor for additional information.

8515 Private PE 8 –Level 2 Credit: 1

8516 Soccer 8 Credit: .5 (I, K, M, P)
This course will focus on the fundamentals of soccer as well as allowing the students to practice their newly acquired skills.

8517 Girls’ Basketball 8 Credit: 1 (I, K, Mc, M, P)

8526 Cross Country 8 Credit: 1 (I, K, Mc, P)
Cross Country is for anyone interested in running. Daily workouts consist of running two to five miles depending on physical conditioning and workout schedule. Cross Country meets involve running a two mile race where most courses go through parks, trails, and other types of terrain.

K = Knox Junior High
Mc = McCullough Junior High
M = Moorhead Junior High
P = Peet Junior High
W = Washington Junior High
Y = York Junior High

9700H/9800H Music Appreciation
Credit:  1
Music Appreciation is for students who are interested in music but do not want to be part of a performing group. It includes the study of all phases of music, including history, theory, vocal, and instrumental music. Other topics include popular music, music for the stage and screen, music technology, music and careers.

9705/9805 Beginner Band
Credit:  1
This class is for new instrumental musicians. Selection of instruments is made upon the recommendation of the band director. Students will be required to purchase various instrument supplies and rent/purchase their chosen instrument. Students who choose band as an elective are making a commitment to remain in the program for the entire year. A fee will be charged if a student is using a school-owned instrument.

Band
Credit:  1
Students develop musical ability by participating in large and small ensembles and solo performances. Students will be expected to attend various rehearsals and performances outside the regular school day. Students are placed in appropriate band classes commensurate with their skill levels following a competitive audition. Students who choose band as an elective are making a commitment to remain in the program for the entire year. A fee will be charged if a student is using a school-owned instrument.

Choir
Credit:  1
Students participate through group and solo activities that allow them to develop vocal and choral techniques that include reading, listening and appreciation. Students will be expected to attend various rehearsals and performances outside the regular school day. Students are placed in appropriate choir classes commensurate with their skill levels following a competitive audition. Students who choose choir as an elective are making a commitment to remain in the program for the entire year.

9717/9817 Beginner Orchestra
Credit:  1
Beginner Orchestra is for new string musicians (violin, viola, cello and string bass only). Instrument selection is made with the recommendation of the orchestra director. Students will be required to purchase various instrument supplies and rent/purchase their chosen instrument. Students who choose orchestra as an elective are making a commitment to remain in the program for the entire year. A fee will be charged if a student is using a school-owned instrument.

Orchestra
Credit:  1
Students continue to develop their appreciation and understanding as musicians through performance in large and small groups and solos. Students will be expected to attend various rehearsals and performances outside the regular school day. Students are placed in appropriate orchestra classes commensurate with their skill levels following a competitive audition. Students who choose orchestra as an elective are making a commitment to remain in the program for the entire year. A fee will be charged if a student is using a school-owned instrument.

9714/9814 Cheerleading
Credit:  1
This course provides a specific knowledge and experience of cheerleading skills, with emphasis on motion sharpness and placement, tumbling skills, stunts, dance, teamwork, spirit, and enthusiasm at an elite level. Participation is expected outside of the school day and is part of the grade in cheerleading. Cheerleaders may perform at junior high football games, volleyball games, basketball games, pep rallies, parades, select high school football and basketball games, and competitions. Enrollment is limited to those students who are selected to the Cheerleading squad. Tryouts are held during the spring semester for the following school year.

9715H/9815H Science Investigations
Credit:  .5 (Y)
In this course, students will use critical thinking and scientific problem solving skills to explore a variety of science topics, such as forensics and human diseases. Students will also use computers and information technology tools to perform and support scientific investigations.

9740H/9840H Theater Arts I
Credit:  .5
Students will learn expressive techniques, acting concepts, theater production concepts and appreciation of theatrical events. They will learn mime, improvisation, basic combat techniques, and character development. In class, students will explore script writing and will participate in storytelling, puppetry, Reader’s Theater, and play production.

9741H/9841H Theater Arts II
Prerequisite: Theater Arts I
Credit:  .5
Students extend and continue activities and objectives of Theater Arts I. They will increase their experiences inexpressive techniques, acting concepts, theater production concepts and appreciation of theatrical events. Students will participate in a variety of activities including Reader’s Theater, single and ensemble acting, improvisation, script writing, and all aspects of play production.

9742/9842 Theater Troupe
Credit:  .5-1 (M, P, W)
Students will develop and experience a working knowledge of play production through various performance opportunities. Students will be expected to attend rehearsals and performances outside the regular school day. Students who choose Theater Troupe as an elective are making a commitment to the program.

9746H/9846H Theater Production
Credit:  .5 (Mc, W, Y)
Theater Production is offered to 8th grade students who have completed Theater Arts I. This class has the option of competing in acting tournaments (participation in tournaments not required). The class will work or perform in all productions at the school.

9743H/9843H Art I
Credit:  .5
Through a variety of two and three-dimensional mediums, students build a strong foundation in the elements and principles of art. The curriculum allows each student to build on previous art
experiences and prepares them for more advanced levels of art. Students will be exposed to and encouraged to develop an art portfolio.

9744H/9844H Art II
Prerequisite: Art I
Credit: .5
Students create art with emphasis on art history: prehistoric to modern. A portfolio will be developed and maintained.

9845H Art III
Prerequisite: Art II
Credit: .5 (I, Mc, P, W)
Students will focus on applying their knowledge of the elements and principles of design into works of art that convey concepts and ideas that are original and unique. Independence is highly encouraged in the creative decision-making process. The main focus of the class will be the development of a portfolio that meets the requirements for acceleration into the HS Art II curriculum.

9748H/9848H Ceramics
Credit: .5 (I, P, W, Y)
While exploring a variety of hand building and glazing techniques, students will incorporate theory and technique to create complex and interesting three-dimensional art forms.

9751H/9851H Exploring Languages
Credit: .5 (I, Mc, P, W, Y)
The student will explore and experience the linguistic skills of Spanish, German, and French through listening, speaking, reading and writing. They will gain skills in studying a language and learn about the cultures associated with these three languages. This course does not count toward high school graduation requirements.

9752H Communications
Credit: .5 (I, Mc, P, W, Y)
This one semester course is designed to prepare 7th grade students to be effective communicators. From speaking to listening, we cover all aspects of communication by allowing students to work independently, in pairs, and in groups while focusing on different types of public speaking. Students will be encouraged to work on the clarity of their message. All assignments are geared to building the students’ confidence. In addition, this course well prepares students for the high school Communication Applications class.

9753H/9853H Debate
Credit: .5 (K, P, W)
In this course students will learn to plan, prepare, research, analyze and develop speaking skills. All students will participate in several individual speaking categories: impromptu speaking, extemporaneous speaking, oratory, and oral interpretation. Students will be expected to attend area debate competitions outside the regular school day.

9754H/9854H Career Portals: Technology I
Credit: .5
This course investigates the tools, materials, and processes utilized in today’s technical career fields. An emphasis on math, science and reading, to explore valid, current educational and career opportunities will drive this program. Students will fully engage each technology related career topic by experiencing activities and projects that relate to each topic. Whether it is programming a robot, building a rocket, or filming a news brief student’s gain current knowledge in a practical instructional format. Students will incorporate decision-making tools and problem-solving skills for college and career planning. This course builds upon skills from academic subjects, information technology, and interpersonal communication to give each student a solid foundation to make personal career choices.

9755H/9855H Career Portals: Technology II
Credit: .5
This course uses a systems technology, as it relates to tools, materials, and processes, with an emphasis on math, science and reading, to explore valid, current educational and career opportunities. Through cooperative learning and project management, the student will gain a better understanding about themselves, their interests, and their abilities. Students will incorporate decision-making tools and problem-solving skills for college and career planning. This course builds upon skills from academic subjects, information technology, and interpersonal communication.

9757H/9857H Health
Credit: .5 (W)
This course helps students acquire the information necessary to become healthy adults and learn behaviors in which they should or should not participate. Students use problem solving, research and goal setting to gain knowledge and skills useful in making decisions in the areas of nutrition, CPR, and First Aid, maturity, diseases (including STDs) and drug use. This course is not for High School credit.

9758H/9858H Career Portals: Human Services
Credit: .5
The goal of this course is to create a culture of high expectation and continuous improvement that provides middle school students with the fundamental life skills required for personal life management. The principal life skills obtained from this course will include money management, career development, food and nutrition, child development, and parenting skills.

9760H/9860H Career Portals: Computer Skills
Credit: .5 (W)
The goal of this course is to build the fundamental keyboarding skills that each student will need to be successful in their pursuit of their career choices. Students will experience the skills necessary to address technical applications of emerging technology careers. Student reading, writing, computing, and communication skills will be enhanced as technology applications are explored. Keyboard specifics will be reinforced through practical application along with proper care and maintenance of the computer.

9761H/9861H Career Portals: Computer Science
Credit: .5
The goal of this course is to familiarize students with the fundamental computer applications required in today’s job market and how those applications can be applied to their personal career choice. Students will learn computer aptitudes and applications that will help them as they progress through high school, college, and career. Topics covered will include multimedia, word processing, spreadsheets, data bases and presentation programs. In addition, students will learn the basics of the internet including: web safety; web based research, web protocol, and other fundamentals of electronic communication.

9887H Career Portals: Computer Science II
Credit: .5 (I, K, Mc, M, Y)
This is a beginning multimedia class with an emphasis on skills required for basic website construction. Topics include vector and bitmap graphic creation and modification, creation of Flash movies, and website development and creation.

9762 Yearbook I
Credit: 5 - 1 (K, I, Mc, M, P, W, Y)
This basic course is required for all students interested in being a member of the yearbook staff. The course offers the student training in the production of the school yearbook. Students develop abilities in gathering information, writing copy and captions, understanding components of quality photography, copy editing skills, and techniques of headlines.

9682 Yearbook II
Prerequisite: Yearbook I
Credit: 5 - 1 (K, I, Mc, M, P, W, Y)
This course is for the yearbook staff members. Second year yearbook students continue to develop their journalism skills from Yearbook I. Students further develop their skills and knowledge in the use of publishing software. Students are encouraged to fill an editor's position and take a leadership role in the publication staff. Students will plan a yearbook ladder, complete various spreads and assignments, copy, edit, and complete a portfolio of work.

9763H/9863H Teen Leadership
Credit: 5 (I, K, Mc, M, P, Y)
This course develops business, professional, and leadership skills. Students learn the importance of principle-centered living, how to handle peer pressure, communicating effectively, building meaningful relationships, making responsible decisions and the importance of goals.

9866H Teen Leadership II
Prerequisite: Teen Leadership I
Credit: 5 (I, Y)
Teen Leadership II is a continuation of the skills learned in Teen Leadership I. Further emphasis is placed on public speaking skills, personal responsibility, and relationships with peers and family. Students will also develop their own personal mission statement.

9765/9865 TV Broadcasting
Credit: 1 (I, K, M, P, W, Y)
Students will learn the fundamentals of news broadcasting including the technical and journalistic sides of the profession. This course is for the student who wants a real life experience in the world of TV broadcasting.

9767H/9867H Exploring Career Connections
Credit: .5
The primary goal of this course is to introduce students to life and workplace skills by identifying individual values, aptitudes, interests, talents, and current occupational abilities. This course will also help prepare students for high school and college by examining their personality temperaments for potential future career choices. Students will set up their own personal career plan and create a guideline for their life. Various occupations will be explored based on computer research and other resources.

9769/9869 Reading Strategies
Credit: 1 (I, K, Mc, M, P)

9771H/9871H Peer Tutor
Credit: .5 (K, M, P, Y)
The student will work with a teacher to provide extra help for students who may be having difficulty. Students are placed in this class based on teacher request, grades, and counselor approval.

9785/9885 Study Skills
Credit: 5 - 1 (I, Mc, M, Y)
This course will focus on time management skills, basic study skills, goal setting, and organization.

9792H/9892H Wildlife Management
Credit: 5 (I, M, P, Y)
This course is designed to offer students information about wildlife management and an introduction to agriculture science.

9797H/9897H Office Aide
Credit: .5
Students will assist the various offices and library staff in daily paperwork, running errands, and basic office duties.

9756/9856 Social Studies Enrichment
9770/9870 Reading Enrichment
9794/9894 Science Enrichment
9795/9895 Language Arts Enrichment
9796/9896 Math Enrichment
9799/9899 Writing Enrichment
Credit: .5 – 1 (I, K, Mc, M, P, Y)
All 7th and 8th grade students’ STAAR scores will be evaluated over the summer. Any student who scores below Level II on a STAAR exam may be required to take a STAAR enrichment class in addition to the core academic course. Several factors will be examined to determine if the student needs the enrichment course as an intervention. These classes are designed to assist the students in areas of weakness as well as teach them good test-taking and study skills. Students may be assigned to a STAAR class during the year based on classroom performance and benchmark scores. Parents who do not want their students to enroll in the STAAR enrichment course(s) will need to consult with the building principal.

Junior High Courses for High School Credit

Offered at all schools

J080H Health
Credit: .5
This course helps students acquire the information necessary to become healthy adults and learn behaviors in which they should or should not participate. Students use problem solving, research and goal setting to gain knowledge and skills useful in making decisions in the areas of nutrition, CPR and First Aid, maturity, diseases (including STDs) and drug use.

J1621 7th or 8th Grade Algebra
Credit: 1
The course builds on the basic foundation of concepts presented in K-8 Mathematics, use symbols to study relationships among quantities, functions to represent and model problem situations, and analyze and interpret relationships. Students will work in many situations to set up equations, use a variety of methods to solve meaningful problems and will continually use problem solving, computation in problem-solving contexts, language and communication. Connections will be made within and outside of mathematics, and reasoning, as well as multiple representations, applications, modeling, justification and proof.

J1641 Geometry
Prerequisite: Algebra I
Credit: 1
The course builds on the basic foundation of concepts presented in K-8 Mathematics and Algebra I, students use geometric thinking to understand mathematical concepts and relationships among them, study properties and relationships having to
do with size, shape, location, direction, and orientation of one, two, and three-dimensional figures. Students will perceive the connection between geometry and the real and mathematical worlds and use geometrical ideas, relationships, and properties to solve problems. Students will use a variety of representations (concrete, pictorial, algebraic, and coordinate), tools, and technology to solve meaningful problems by representing figures, transforming figures, analyzing relationships among figures, and proving concepts related to figures.

**J260H Communication Applications**

*Credit: .5*

Students will learn communication theory and have the opportunity to develop practical skills for both professional and social communication.

**J3001 Spanish I**

*Credit: 1*

This course offers basic understanding of the Spanish language and exposure to the culture of the Spanish-speaking world. Introduction to basic vocabulary and grammar will enable students to learn to discuss everyday topics such as family, school, numbers, time, weather, and clothing. Oral and written practice is stressed. Because of the grammar requirements, a strong basis in language arts is required. Successful completion of this course earns the student one LOTE high school credit.

**J3161 Spanish I Native Speakers**

*Credit: 1*

This course is designed for students whose home language is Spanish. Students will be given the opportunity to expand their ability to comprehend, speak, read, and write Spanish in accordance with their linguistic and cultural strengths. Emphasis will be on reading and writing Spanish, and the understanding of grammatical concepts. Students will be prepared to move on to Spanish II at the completion of this course.

**J3111 Spanish II Native Speakers**

*Credit: 1*

Successful completion of Spanish II NS will result in retroactive Spanish I credit. This course offers advanced understanding of the Spanish language and exposure to the culture of the Spanish-speaking world. The basic skills of reading, writing, speaking, listening, and understanding the cultures are

continued. This course emphasizes grammatical concepts. Oral and written practices are stressed.
